

# Table of Contents

## Foundations of Multi-agent Systems

|   |     |
|---|-----|
| Perspectives on Organizations in Multi-agent Systems .....  | 1   |
| <i>L. Gasser</i>  |     |
| Multi-agent Infrastructure, Agent Discovery, Middle Agents for<br>Web Services and Interoperation ..... | 17  |
| <i>K. Sycara</i>  |     |
| Logical Foundations of Agent-Based Computing .....  | 50  |
| <i>W. van der Hoek</i>  |     |
| Standardizing Agent Communication .....   | 74  |
| <i>Y. Labrou</i>  |     |
| Standardizing Agent Interoperability: The FIPA Approach .....   | 98  |
| <i>S. Poslad and P. Charlton</i>  |     |
| Distributed Problem Solving and Planning .....  | 118 |
| <i>E.H. Durfee</i>  |     |
| Automated Negotiation and Decision Making in Multiagent Environments .....                              | 150 |
| <i>S. Kraus</i>   |     |
| Agents' Advanced Features for Negotiation and Coordination .....  | 173 |
| <i>E. Oliveira</i>  |     |

## Social Behaviour, Meta-reasoning, and Learning

|   |     |
|---|-----|
| Towards Heterogeneous Agent Teams .....   | 187 |
| <i>M. Tambe and D.V. Pynadath</i>   |     |
| Social Knowledge in Multi-agent Systems .....                                     | 211 |
| <i>V. Mařík, M. Pěchouček, and O. Štěpánková</i>                                  |     |
| Machine Learning and Inductive Logic Programming for Multi-agent<br>Systems ..... | 246 |
| <i>D. Kazakov and D. Kudenko</i>  |     |
| Relational Reinforcement Learning .....   | 271 |
| <i>K. Driessens</i>   |     |

|   |     |
|---|-----|
| From Statistics to Emergence: Exercises in Systems Modularity ..... | 281 |
| <i>J. Kelemen</i>   |     |

|                               |     |
|-------------------------------|-----|
| Emotions and Agents .....     | 301 |
| <i>P. Petta and R. Trappl</i> |     |

## Applications

|   |     |
|---|-----|
| Multi-agent Coordination and Control Using Stigmery Applied<br>to Manufacturing Control ..... | 317 |
| <i>P. Valckenaers, H. Van Brussel, M. Kollingbaum, and O. Bochmann</i>                        |     |

|  |     |
|--|-----|
| Virtual Enterprise Modeling and Support Infrastructures:<br>Applying Multi-agent System Approaches ..... | 335 |
| <i>L.M. Camarinha-Matos and H. Afsarmanesh</i>   |     |

|   |     |
|---|-----|
| Specialised Agent Applications .....    | 365 |
| <i>K. Fischer, P. Funk, and C. Rufß</i> |     |

|   |     |
|---|-----|
| Agent-Based Modelling of Ecosystems for Sustainable Resource Management . | 383 |
| <i>J. Doran</i>   |     |

|   |     |
|---|-----|
| Cooperating Physical Robots: A Lesson in Playing Robotic Soccer ..... | 404 |
| <i>B. Nebel</i>   |     |

|  |     |
|--|-----|
| A Multi-agent Study of Interethnic Cooperation ..... | 415 |
| <i>V. Kvasnička and J. Pospíchal</i>                 |     |

|                           |     |
|---------------------------|-----|
| <b>Author Index</b> ..... | 437 |
