

# Table of Contents

---

## Part I Introduction

---

### Bayes, Boltzmann and Bohm: Probabilities in Physics

*Jean Bricmont* ..... 3

---

## Part II Classical Statistical Mechanics

---

### The Rise of Statistical Mechanics

*Carlo Cercignani* ..... 25

### Boltzmann's Approach to Statistical Mechanics

*Sheldon Goldstein* ..... 39

### Microscopic Time Reversibility and the Boltzmann Equation

*Herbert Spohn* ..... 55

### The Direction of Time

*Oliver Penrose* ..... 61

### How to Implement Boltzmann's Probabilistic Ideas in a Relativistic World?

*Michael K.-H. Kiessling* ..... 83

---

## Part III Quantum Mechanics

---

### Probability in Orthodox Quantum Mechanics:

#### Probability as a Postulate

#### Versus Probability as an Emergent Phenomenon

*Stephen L. Adler* ..... 103

### Bohmian Mechanics

*Detlef Dürr* ..... 115

### Chance of Reduction as Chance of Spontaneous Localisation

*Alberto Rimini* ..... 133

**Probabilities, Decohering Histories,  
and the Interpretation of Quantum Mechanics**  
*Roland Omnès* . . . . . 149

**Space Time and Probability**  
*Simon W. Saunders* . . . . . 157

**Hidden Variables, Statistical Mechanics and the Early Universe**  
*Antony Valentini*. . . . . 165

**Perspectives of the Dynamical Reduction Program**  
*Gian Carlo Ghirardi*. . . . . 183

**Relativistic Theory of Continuous Measurements**  
*Heinz-Peter Breuer, Francesco Petruccione* . . . . . 195

**Probabilistic Results for Six Detectors  
in a Three-Particle GHZ Experiment**  
*José Acacio de Barros, Patrick Suppes*. . . . . 213

**Classical Versus Quantum Probabilities**  
*Enrico G. Beltrametti* . . . . . 225

---

**Part IV Chaotic Systems**

---

**Does Quantum Chaos Exist?**  
*Andreas Knauf* . . . . . 235

**Time-Scales for the Approach to Thermal Equilibrium**  
*Stefano Ruffo*. . . . . 243

**Einstein’s Nonconventional Conception of the Photon  
and the Modern Theory of Dynamical Systems**  
*Andrea Carati, Luigi Galgani* . . . . . 253

---

**Part V Philosophy of Probability**

---

**What Interpretation for Probability in Physics?**  
*Maria Carla Galavotti* . . . . . 265

**Statistical Mechanics  
and the Propensity Interpretation of Probability**  
*Peter J. Clark* . . . . . 271

**Interpreting Probabilities:  
What’s Interference Got to Do with It?**  
*Tim Maudlin* . . . . . 283
