

Table of Contents

QoS in the Internet

- Globule: A Platform for Self-Replicating Web Documents 1
Guillaume Pierre, Maarten van Steen
- Architecture of QOSMIC – A QoS Manager for Internet Connections 12
Franco Tommasi, Simone Molendini, Antonio Vilei, Andrea Sponziello
- A QoS-Driven ISP Selection Mechanism for IPv6 Multi-homed Sites 23
Marcelo Bagnulo, Alberto Garcia-Martinez, David Larrabeiti, Arturo Azcorra

Multimedia Streaming

- Broadcasting Multimedia Channels in Future Mobile Systems 35
Cristian Hesselman, Henk Eertink
- Providing VCR Functionality in Staggered Video Broadcasting 44
Jin B. Kwon, Heon Y. Yeom
- A Fully Scalable and Distributed Architecture for Video-on-Demand 59
Fernando Cores, Ana Ripoll, Emilio Luque

Multimedia Multicast

- A Mechanism for Multicast Multimedia Data with Adaptive QoS Characteristics . . 74
Christos Bouras, A. Gkamas
- Bandwidth Measurements of ALM Trees for Content Distribution 89
Rui J. Lopes, Laurent Mathy, David Hutchison
- GCAP: A New Multimedia Multicast Architecture for QoS 103
*Michel Diaz, Roberto Canonico, Luis Costa, Serge Fdida, David Hutchison,
Laurent Mathy, Andreas Meissner, Stephane Owezarski, Rolland Vida,
Lars Wolf*

Wireless Networks and Host Mobility

- Protection of Fairness for Multimedia Traffic Streams
in a Non-cooperative Wireless LAN Setting 116
Jerzy Konorski
- Ad Hoc Routing in Bluetooth 130
Jeroen P.F. Willekens

An Open Signaling Protocol for Wireless Host Mobility 145
George Kormentzas, D. Vergados, J. Soldatos, G. Stassinopoulos

TCP/IP Optimization

TCP/IP Protocol Engine System Simulation 155
M. Benz, K. Feske, U. Hatnik, P. Schwarz

Design and Implementation of a Transparent Forward Error Correction Coding
Daemon for Unreliable Transports 165
Albert K.T. Hui, Samuel T. Chanson

An Analytical Study on TCP-friendly Congestion Control
for Multimedia Streams 180
Wei Wu, Yong Ren, Xiuming Shan

Service Development and Deployment

Model-Based Service Creation in the Friends Project 192
Wouter B. Teeuw, Dick A.C. Quartel

Validation of the Open Service Access API for UMTS Application Provisioning . . 210
Maarten Wegdam, Dirk-Jaap Plas, Musa Unmehopa

On the End-User QoS-Awareness of a Distributed Service Environment 222
I. Widya, R.E. Stap, L.J. Teunissen, B.F. Hopman

Author Index 239
