Contents

1. Introduction 1

2. A Concept for Revitalisation of Product Development
by *S. Berndes, A. Stanke* 7
2.1 The Worldwide Tendencies in Economy 7
2.2 The New Orientation for Product Development – Interactions between Time, Costs, and Quality 11
2.3 Concurrent Simultaneous Engineering (CSE) – Strategy and Methodology of New Oriented Product Development 15
2.4 Topics of Concurrent Simultaneous Engineering 18
2.4.1 Strategies for Concurrent Simultaneous Engineering 18
2.4.2 CSE Areas: Potentials for Improvements in Product Development 24
2.5 Implementation of Concurrent Simultaneous Engineering – A Business Process Re-Engineering Approach 41
2.5.1 Culture – The Factor of Success in CSE-Implementation 41
2.5.2 A guideline for CSE-Implementation 45

3. The Organisational Environment of Concurrent Simultaneous Engineering (CSE) by *S. Berndes, A. Stanke* 57
3.1 Required Characteristics of a CSE Organisation 59
3.2 Project-management in a CSE Organisation 63
3.2.1 The Project-Team and its Characteristics 63
3.2.2 The Project-Manager and his Role 66
3.2.3 Rules of Teamwork 67
3.2.4 Possible Organisation Arrangements for R&D 70
3.2.5 Core Team – Heavyweight Team Structure 73
3.2.6 Portfolio of Approaches 75
3.3 Team Organisation 76
3.3.1 The Concept of the Team Organisation 76
3.3.2 Open Questions Arising with the Team Organisation 79
3.3.3 Advantages of a Team Organisation 81
3.4 Incentive & Motivation in a Team Organisation 85
3.5 Organisational Learning in a Team Organisation 91

3.5.1 Characteristics of a Learning Organisation ... 91
3.5.2 A Concept for Organisational Learning in a Team Organisation ... 93
3.6 Conclusion ... 99

4. Enabling Technologies I: The CONSENS Platform ... 103
4.1 Support of CSE by the CONSENS Platform by *S. Kessler* ... 103
4.1.1 Support of CSE by the Framework SIFRAME ... 105
4.1.2 Support of CSE by the Information Management System ... 107
4.1.3 Support of CSE by the Product Information Archive ... 109
4.2 The main Components of the CONSENS Platform by *S. Kessler* ... 111
4.2.1 The Framework SIFRAME ... 112
4.2.2 Information Management System (IMS) ... 114
4.2.3 Product Information Archive (PIA) ... 115
4.3 Modules of the CONSENS Platform ... 117
4.3.1 SIFRAME – The CONSENS Framework by *S. Kessler* ... 117
4.3.2 IMS – Information Management System by *L. Miotti* ... 138
4.3.3 Product Information Archive (PIA) by *D. Koch* ... 146
4.4 Summary by *S. Kessler* ... 155

5. Enabling Technologies II: CONSENS Tools ... 157
5.1 Introduction by *E. Sleeckx* ... 157
5.2 Support of CSE by Product Oriented Tools by *E. Sleeckx* ... 159
5.3 Product Oriented Tools ... 164
5.3.1 Intelligent Computer Aded Design: KnobieCAD by *P. Raiteri* ... 164
5.3.2 Design for Manufacturing by *J. L. T. Santos, S. Tilly* ... 175
5.3.3 Design for Assembly by *R. Menges, U. Eigenmann* ... 190
5.3.4 Design to Cost by *E.Engelborghs, J. Frech* ... 204
5.3.5 Design of Production Facilities by *R. Menges, U. Eigenmann* ... 215
5.3.6 Design for Quality by *K. Jeschke* ... 227
5.4 Support of CSE by Project Oriented Tools by *E. Sleeckx* ... 247
5.5 Project Oriented Tools ... 249
5.5.1 EPM – Engineering Process Manager by *S. Berndes, A. Stanke* ... 249
5.5.2 MDS: A System for Decision Support in the Economic Efficiency Analysis and Controlling of the Product Developing Process by *G. Korn* ... 267
5.6 Conclusion by *E. Sleeckx* ... 281
5.6.1 The Tools in Relation with the PSI-Strategies ... 281

5.6.2 The CONSENS-Tools and CSE ... 283

6. Case Studies of Successful CONSENS Implementation ... 285
6.1 TEMIC TELEFUNKEN microelectronic GmbH by *J. Bergner* ... 285
6.1.1 Description of Products and Projects ... 285
6.1.2 Description of the CONSENS Environment ... 286
6.1.3 Description of Enabling Information Technology ... 297
6.1.4 Improvements of the Product Development Process with Respect to CSE ... 300
6.2 Dasa Military Aircraft Division by *J. Vilsmeier* ... 302
6.2.1 Description of Products and Projects ... 302
6.2.2 Description of CONSENS Environment ... 303
6.2.3 Description of Enabling Information Technology ... 314
6.2.4 Improvements of the Product Development Process with Respect to CSE ... 321
6.2.5 Future Improvements ... 323
6.3 HIDROSOREFAME by *J. M. Camacho* ... 326
6.3.1 Description of Produts and Projects ... 326
6.3.2 Description of the CONSENS Environment ... 328
6.3.3 Description of the Test Environment ... 331
6.3.4 Improvements of the Product Development Process with Respect to CSE ... 333
6.3.5 Future Improvements ... 340
6.4 ALCATEL BELL by *E. Engelborghs* ... 341
6.4.1 Description of Products and Projects ... 341
6.4.2 Description of CONSENS Enviroment ... 344
6.4.3 Description of Enabling Information Technology and Improvements of the Product Development ... 347
6.5 AEG Schienenfahrzeuge GmbH by *L. Bertling, C. Köhler* ... 351
6.5.1 Description of Products and Projects ... 351
6.5.2 Description of the CONSENS Environment ... 353
6.5.3 Description of Enabling Information Technology ... 365
6.5.4 Improvements of the Product Development Process with Respect to CSE ... 369
6.5.5 Future Improvements ... 370

7. Future Trends in Concurrent Simultaneous Engineering by *D. Koch, J. Vilsmeier, J. Warschat* ... 373
7.1 Conclusion of the CONSENS Project ... 373
7.2 Co-operation in Engineering Based on Core Competences ... 374
7.3 Co-operation via a Global Engineering Marketplace ... 379
7.4 Multi-company Development Co-operations ... 382

7.5 Conclusion 384
