<i>Preface</i>	<i>ix</i>	
1	Introduction	1
2	The European labour market: Some facts	5
2.1	Unemployment: An overview	5
2.2	Labour market flows	8
2.2.1	Worker flows	9
2.2.2	Job turnover	18
2.3	Wages and the quality of jobs	22
2.3.1	The distribution of wages	22
2.3.2	Unemployment experience and the quality of jobs	26
2.4	Conclusions	30
3	Causes of the rise in unemployment	31
3.1	Introduction	31
3.2	A framework for analysis	31
3.3	Macroeconomic policies and cyclical unemployment	33
3.4	Equilibrium unemployment: Technology, growth and jobs	43
3.4.1	Why does technological progress destroy jobs?	45
3.4.2	Evidence on technical progress, job turnover and unemployment	47
3.5	Equilibrium unemployment: Bias in technological change	49
3.6	Equilibrium unemployment: International competition	51
3.7	Persistence	53
3.7.1	Hiring and firing costs	54
3.7.2	Capital shortage	55
3.7.3	Insider membership dynamics	55
3.7.4	Outsider disenfranchisement	56
4	Labour market institutions and unemployment	59
4.1	Labour market regulations	59
4.1.1	Hiring constraints	59
4.1.2	Firing constraints	60
4.1.3	Quantitative restrictions	61

4.1.4	Summary	62
4.2	Labour market regulations and unemployment	64
4.3	Wage bargaining institutions and unemployment	68
5	The economics of labour market regulation	71
5.1	Introduction	71
5.2	The economics of regulation	72
5.2.1	The simple case for flexibility	72
5.2.2	Market power	74
5.2.3	Uncertainty	75
5.2.4	Informational constraints	78
5.2.5	Human capital: A rigid route to efficiency?	82
6	The political economy of labour market regulation	85
6.1	Introduction	85
6.2	Obstacles to reform	87
6.2.1	An illustrative calculation	89
6.3	Implementing reform	93
6.3.1	Compensating transfers	93
6.3.2	Timing	95
6.3.3	Two-tier systems	95
6.3.4	Redistribution of property rights	97
6.4	Labour market institutions compared	98
7	Policies to fight unemployment: Taking stock	103
7.1	Introduction	103
7.2	Eliminating the negative	104
7.2.1	Unemployment benefits	104
7.2.2	Minimum wages	108
7.2.3	Payroll taxes	111
7.2.4	Firing constraints	114
7.2.5	Union power and wage bargaining institutions	115
7.2.6	Monopoly power	117
7.3	Accentuating the positive	118
7.3.1	Training	118
7.3.2	Employment vouchers	121
7.3.3	Workfare	122
7.4	Macroeconomic policies	124
8	Conclusion	129
	Notes	131
	References	141

List of tables

2.1	The incidence of unemployment	7
2.2	Annual gross worker flows, 1987	10
2.3	The secular behaviour of unemployment flows	12
2.4	International comparisons of gross job turnover and its components	19
2.5	Job turnover across the cycle	21
2.6	Wage share and productivity growth	23
2.7	The distribution of wages	25
2.8	Alternative measures of unemployment, 1989	29
3.1	Fiscal indicators: Government structural balances	34
3.2	Monetary indicators: Short-term interest rates	35
6.1	Income shares and unemployment rates	90
6.2	Gains and losses from reform	90
6.3	Growth rate of income per capita	99
7.1	Minimum wages	109

List of figures

2.1	Unemployment rates, 1960–94	6
2.2	Worker flows, 1987	10
2.3	Target unemployment rates, 1970–93	14
2.4	Decomposition of target unemployment rates, 1970–93	16
3.1	The determination of equilibrium unemployment	32
3.2	Unemployment versus inflation, 1961–94	36
3.3	The Phillips curve, 1961–94	37
3.4	Unemployment versus inflation, 1978–93	39
3.5	Unemployment versus job turnover	48
3.6	Change in unemployment versus change in productivity growth	48
4.1	Firing costs, 1956–84	63
4.2	Job security and unemployment, 1981–90	66
5.1	The costs of rigidity	73
7.1	Equilibrium unemployment	105
