1 General introduction: the EU within the global context of regional integration 1

Ali El-Agraa

- 1.1 What is economic integration? 1
- 1.2 Economic integration and WTO rules 3
- 1.3 The global experience 3
- 1.4 The EU 17
- 1.5 The possible gains from economic integration 18
- 1.6 Areas of enquiry 19
- 1.7 About this book 19
- Appendix 1.1 WTO's Article XXIV 20

Part One EU history, institutions, legal dimension and basic statistics

2 A history of European integration and evolution of the EU 24

Ali El-Agraa

- 2.1 A short history of European unity 24
- 2.2 The evolution of the EU 30
- 2.3 Conclusion 37

3 EU institutions 39

Ali El-Agraa

- 3.1 The Commission 39
- 3.2 The Council 42

- 3.3 The European Parliament 45
- 3.4 Types of EU decision 48
- 3.5 The Economic and Social Committee (ESC) 49
- 3.6 The Committee of the Regions 50
- 3.7 The European Central Bank (ECB) 50
- 3.8 The European Investment Bank (EIB) 51
- 3.9 The Courts 51
- 3.10 The Ombudsman 53
- 3.11 Institutional reform 53
 - Appendix 3.1 Agencies of the European Union 55
 - Appendix 3.2 The previous policy/administrative areas of the European Union 55

4 The legal dimension in EU integration 57

Damian Chalmers

- 4.1 Actor-interest based approaches 58
- 4.2 The structuring of EU integration through EU law 68
- 4.3 Law as the cipher for the legitimacy of the EU 71
- 4.4 Actor network theories 72
- 4.5 Conclusion 73
 - Notes 74

5 The basic statistics 76

Ali El-Agraa

- 5.1 Area and population concerns 76
- 5.2 GNI per capita and GDP 77
- 5.3 Demand 77
- 5.4 Money, consumer price index and interest rates 78
- 5.5 Direction of trade 78
- 5.6 Income/consumption distribution 79
- 5.7 Tariffs 79
 - Appendix 5.1 The statistical tables 79

Part Two Theory and measurement of economic integration

6 The theory of economic integration 99

Ali El-Agraa

- 6.1 The customs union aspects 99
- 6.2 Customs unions versus free trade areas 113
- 6.3 Economic unions 114
- 6.4 Macroeconomics of integration 115
- 6.5 Economic integration in developing countries 115
- 6.6 Economic integration among communist countries 116
- 6.7 New theoretical developments 116
- 6.8 Conclusions 117

7 Measuring the impact of economic integration 118

Nigel Grimwade

- 7.1 Introduction 118
- 7.2 The effects of economic integration 118
- 7.3 Estimating the trade effects – different approaches 121
- 7.4 The nature of European specialization 134
- 7.5 Estimating the income effects 136
- 7.6 Economic growth 139
- 7.7 Conclusion 140

Part Three EU monetary integration

8 The theory of monetary integration 144

David Mayes and Ali El-Agraa

- 8.1 Disentangling the concepts 144
- 8.2 What is monetary integration? 145
- 8.3 The gains and losses 147
- 8.4 A 'popular' cost approach 153
- 8.5 A concluding remark 155

9 The development of EU economic and monetary integration 157

David Mayes and Ali El-Agraa

- 9.1 The Werner Report 157
- 9.2 The EMS 159

- 9.3 The Delors Report and the Maastricht Treaty 161
- 9.4 The transition to EMU 166
- 9.5 The position of the United Kingdom, Sweden and Denmark 170
- 9.6 Conclusions 173
Notes 174

10 The operation of EMU 175

David Mayes

- 10.1 The Eurosystem and the euro 175
- 10.2 The coordination of fiscal and other macroeconomic policies 178
- 10.3 Completing EMU 183
Notes 184

Part Four The single European market

11 The economics of the single market 186

Iain Begg and Ali El-Agraa

- 11.1 Why 'the single market'? 186
- 11.2 An evolving programme 188
- 11.3 The benefits of the single market 190
- 11.4 Empirical research on the single market 191
- 11.5 Conclusion 197
Notes 198

12 Competition policy 199

Wolf Sauter

- 12.1 Introduction 199
- 12.2 The rationale for EU competition policy 199
- 12.3 Legal framework 201
- 12.4 Enforcement 204
- 12.5 The public turn 207
- 12.6 Rationalization 208
- 12.7 Modernization 209
- 12.8 Conclusion 210

13 Industrial policy 212

Victoria Curzon Price

- 13.1 What is industrial policy? 212
- 13.2 Industrial policy: for and against 214

CONTENTS

- 13.3 Industrial policy in the EC:
the control of state aid 218
- 13.4 Industrial policy in the EU:
research and technological
development 228
- 13.5 Conclusion 235
Notes 237

14 Tax harmonization 238

Brian Ardy and Ali El-Agraa

- 14.1 Why is tax harmonization necessary? 238
- 14.2 The principles of tax harmonization 239
- 14.3 The EU's experience of tax
harmonization 240
- 14.4 Tax harmonization today 243
- 14.5 Conclusion 253
Notes 253

15 Transport policy 256

Kenneth Button

- 15.1 Introduction 256
- 15.2 The European transport system 257
- 15.3 The initial development of a CTP 258
- 15.4 The CTP and other aspects of
policy in the 1990s 262
- 15.5 The 2004 enlargement 267
- 15.6 Conclusions 269
Notes 269

16 Energy policy and energy markets 270

Stephen Martin and Ali El-Agraa

- 16.1 Introduction 270
- 16.2 The need for a EU energy policy 270
- 16.3 Past attempts and present successes 271
- 16.4 Energy markets 278
- 16.5 Primary energy 279
- 16.6 The internal market in energy 282
- 16.7 Conclusion 287
Notes 288

17 Environmental policy 290

Alan Marin

- 17.1 Background 290
- 17.2 Economic (or economists') assessment
of environmental policies 292
- 17.3 Further implications for EU policies 301
- 17.4 Conclusions 305
Notes 306

18 Factor mobility 311

David Mayes and Juha Kilponen

- 18.1 Single market 313
- 18.2 Capital movements 314
- 18.3 On the determinants of direct investment 318
- 18.4 Capital movements in Europe 319
- 18.5 Labour movements 323
- 18.6 Labour flows in the EU 325
- 18.7 Capital and labour movements combined 330
- Notes 332

Part Five EU budget and structural policies

19 The general budget 334

Brian Ardy and Ali El-Agraa

- 19.1 The economic theory of the state 335
- 19.2 Fiscal federalism 336
- 19.3 The EU and fiscal federalism 338
- 19.4 Budget rules and procedure 339
- 19.5 EU budget revenue 340
- 19.6 EU budget expenditure 343
- 19.7 Net contributions to the EU budget 347
- 19.8 The EU budget and EMU 348
- 19.9 The EU budget and enlargement 349
- 19.10 Conclusion 351
- Notes 352

20 The Common Agricultural Policy 354

Ulrich Koester and Ali El-Agraa

- 20.1 General background 355
- 20.2 The problems of agriculture 355
- 20.3 Objectives of the CAP 362
- 20.4 The birth of the CAP and institutional setting 363
- 20.5 The market organizations of the CAP 371
- 20.6 Structural policy 381
- 20.7 The future of the CAP 385
- 20.8 Conclusion 388
- Notes 390

21 The Common Fisheries Policy 391

Ella Ritchie and Ali El-Agraa

- 21.1 Introduction 391
- 21.2 Background 392

- 21.3 Policy objectives 394
- 21.4 Policy process 397
- 21.5 Reform of the CFP? 398
- 21.6 Conclusion 400
 - Note 400

22 Regional policy 401

Harvey Armstrong

- 22.1 The case for a EU regional policy 401
- 22.2 The effects of integration on EU regional disparities 405
- 22.3 EU regional policy in the period 2000–2006 411
- 22.4 Some key issues for the future 416

23 Social policies 421

Doreen Collins and Robert Salais

- 23.1 Introduction 421
- 23.2 The Treaty of Rome 422
- 23.3 The Single European Act and the Social Charter 423
- 23.4 The development of social policy 424
- 23.5 The Treaty of Union and its perspectives 425
- 23.6 Free movement 426
- 23.7 Employment 428
- 23.8 Pensions 430
- 23.9 The European Social Fund 431
- 23.10 Education and vocational training 433
- 23.11 Consumer policy 436
- 23.12 Working conditions and industrial relations 437
- 23.13 Health and safety 439
- 23.14 Equal treatment of men and women 440
- 23.15 Social exclusion 442
- 23.16 Migration and asylum 444
- 23.17 An overall view 446

Part Six EU external relations

24 External trade policy 450

Marius Brühlhart and Alan Matthews

- 24.1 EU trade and specialization patterns 451
- 24.2 The Common Commercial Policy (CCP) 456
- 24.3 Trade relations with the main partners 462

- 24.4 Trade policy in a globalizing world 465
- 24.5 Conclusions 468
- Notes 470

25 The EU and the developing world 471

Alan Matthews

- 25.1 Trade policy 474
- 25.2 Development cooperation 481
- 25.3 Conclusions 491

Part Seven Enlargement, success and future of the EU

26 Enlargement 494

David Mayes

- 26.1 The process of enlargement 495
- 26.2 Deciding on a wider membership 498
- 26.3 Coping with a larger Union 502
- 26.4 Coping without enlargement 508
- 26.5 Concluding remarks 510
- Appendix 26.1 Guide to the negotiations – chapter by chapter 511
- Notes 511

27 Has the EU been successful? 513

Ali El-Agraa

- 27.1 The aims set for 1969 513
- 27.2 The aims set for the period from 1969 to the early 1980s 514
- 27.3 The aims set for the period from the mid-1980s to the present 517
- 27.4 Conclusion 518

28 The future of the EU 519

Ali El-Agraa

- 28.1 The vision of the founding fathers 519
- 28.2 The vision of contemporary politicians 520
- 28.3 The Convention for the Future of Europe 525
- 28.4 Conclusion 527

- References 529
- Author index 554
- Subject index 557

List of figures

- 1.1 A proliferation of PTAs 16
- 3.1 The co-decision procedure 46
- 6.1 Trade creation and trade diversion 100
- 6.2 Marginal 'degree of preference' for industrial production 103
- 6.3 General equilibrium of the Cooper–Massell argument 104
- 6.4 Internal economies of scale 106
- 6.5 Social costs and economies of scale: (a) the home country; (b) the partner country 107
- 6.6 Customs unions and the terms of trade 108
- 6.7 UTR versus customs unions 110
- 6.8 Vindicating the Cooper–Massell criticism when dominant W has no tariffs/transport costs 111
- 6.9 Dominant W has no tariffs/transport costs – non-discriminatory tariffs by H/P and a CET consistent with WTO rules: case I 112
- 6.10 Dominant W has no tariffs/transport costs – non-discriminatory tariffs by H/P and a CET consistent with WTO rules: case II 113
- 6.11 Capital mobility: (a) the home country; (b) the partner country 114
- 8.1 The Fleming–Corden analysis of monetary integration 149
- 8.2 The expectations-augmented Phillips curve 150
- 8.3 Monetary integration with expectations-augmented Phillips curves 151
- 8.4 Krugman's (1990) cost–benefits of EMU 154
- 9.1 Performing to the convergence criteria, 1996 165
- 11.1 Transposition deficit, 1992–2002 (percentage of directives not transposed) 188
- 11.2 The structural reform 'j'-curve (trajectory of the economy) 191
- 16.1 Share of net energy imports in total primary energy supply, 1966–2000 272

- 16.2 EU energy balances, 1966–2000 (millions of tonnes of oil equivalent; TPES = energy production plus net imports minus stock increases) 275
- 16.3 EU energy demand indicators, 1966–2000 (TPES = total primary energy supply (millions of tonnes of oil equivalent); electricity consumption measured in kilowatt hours; oil supply measured in tonnes of oil equivalent; GDP measured in 1000 1995 US\$) 279
- 16.4 Technical openness (percentage share of interconnector capacity in total national installed capacity, summer 2001) and percentage of imported capacity in total electricity supplied (1999), selected EU member states 286
- 17.1 Social and private costs of pollution 293
- 17.2 Costs and benefits of pollution abatement 293
- 17.3 Pollution threshold 294
- 19.1 EU revenue, 1971–2001 341
- 19.2 EU 15 own resource contributions and GNP per head 342
- 19.3 EU budget expenditure, 1965–2001 343
- 19.4 CAP and structural expenditure, 1999–2000 344
- 19.5 Net contribution to the EU budget and GNP per head, 1999–2000 347
- 20.1 Welfare effects of suboptimal use of land. If farm A increases use of land and farm B reduces use of land, aggregate welfare will increase by the area a 360
- 20.2 The decision-making process: a stylized model 365
- 20.3 Development of EU and world market prices for agricultural prices 368
- 20.4 The development of the EU trading situation 371
- 20.5 The impact of variable levies on domestic prices 372

- 20.6 The effect of variable levies or fixed tariff rates 373
- 20.7 The impact of preferential access to EU markets 374
- 20.8 The impact of subsidized export constraints 375
- 20.9 The importance of intervention prices 376
- 20.10 The effect of export subsidies on domestic prices 376
- 20.11 Price cuts and direct payments: the case of grains 377
- 20.12 Average costs in milk production and milk prices 378
- 20.13 Budget effects of EU demand for domestic consumption as compared to export subsidization 379
- 20.14 Welfare effects of consumer subsidies 379

LIST OF FIGURES

- 20.15 The effect of price support on productivity 388
- 22.1 Regional gross domestic product per head, at purchasing power parities, 2000 406
- 22.2 Regional unemployment rates (males plus females), 2001 407
- 22.3 Convergence of USA state personal incomes per capita, 1880–1992 411
- 22.4 Structural funds (2000–2006): eligible regions under Priority Objectives 1 and 2, together with regions eligible for transitional assistance 413
- 25.1 Total net ODA from the EU member states to the EC and the EDF (two-year averages (1999 prices – US\$m), net disbursements) 485

List of tables

- 1.1 Schematic presentation of economic integration schemes 1
- 1.2 Economic integration in Europe 5
- 1.3 Regional trade arrangements in Africa 8
- 1.4 Regional trade arrangements in the western hemisphere 10
- 1.5 Regional trade arrangements in Asia-Pacific and the Middle East 14
- 2.1 Results of the referendums on EU membership 37
- 3.1 EU Directorates General and services 41
- 3.2 Committees of the European Parliament 47
- 3.3 Members of the European Parliament, 1999–2004 48
- A3.1 Agencies of the European Union 55
- A5.1 Area, population and life expectancy 79
- A5.2 Health expenditure, mortality and fertility 81
- A5.3 Expenditure on education, 2000 82
- A5.4 Labour force and unemployment 83
- A5.5 GNI per capita, 2001 84
- A5.6 Structure of output, 2001 85
- A5.7 Growth of output 86
- A5.8 Structure of demand, 2001 87
- A5.9 Central government budget, 2000 88
- A5.10 Exports and imports of goods and services, current account balance and international reserves 89
- A5.11 Official development assistance and gross foreign direct investment 90
- A5.12 Money and consumer price index 91
- A5.13 Exports to EU (12, 15) countries (except for Turkey, data for the candidates is too meagre to warrant inclusion) 92
- A5.14 Imports from EU (12, 15) countries (except for Turkey, data for the candidates is too meagre to warrant inclusion) 93
- A5.15 Distribution of income or consumption 94
- A5.16 Average tariffs (%), 1958 95
- II.1 Beef 97

- II.2 Butter 98
- II.3 Beef 98
- II.4 Butter 98
- 7.1 Changes in *ex-post* income elasticities of import demand in the EC 124
- 7.2 Estimated annual effects of European integration on trade flows in manufactured products 126
- 7.3 Estimated impact of the single market on market shares 131
- 7.4 Changes in trade patterns in manufacturing resulting from the single market – an *ex-ante* simulation by EU Commission and CEPR 132
- 7.5 Changes in trade patterns in manufactures resulting from the single market – an *ex-post* simulation by the EU Commission 133
- 7.6 A summary of the results of attempts to estimate trade creation and trade diversion in the EC 134
- 7.7 Representative ratios of trade balances for 91 product groups for EEC member states, 1958–1970 135
- 7.8 Estimates of intra-industry trade for EC member states, 1970–1985 135
- 7.9 Share of inter-industry and intra-industry trade in intra-EC trade 1987–1994 136
- 7.10 Changes in GDP and welfare resulting from trade creation and trade diversion in the single market 138
- 7.11 The effects of economic integration on the growth rate of member states, 1961–1972 and 1974–1981 140
- 9.1 EU member states' performance to convergence criteria 165
- 11.1 Benefits of the internal market 196
- 13.1 Accumulated data on state subsidies, 1970–2001 220
- 13.2 State aid as a percentage of GDP 222
- 13.3 State aid to manufacturing by objectives 222
- 13.4 State aid to the manufacturing sector 223

- 13.5 *Ad hoc* aid to individual enterprises, 1992–2000 224
- 13.6 *Ad hoc* aid to individual enterprises: country breakdown 224
- 13.7 State subsidy decisions by member state, 1997 and average 1999/2001 225
- 13.8 Instruments of state aids, 1998–2000 227
- 13.9 Reimbursements demanded by the Commission, 1982–1993 227
- 13.10 Outstanding demands for reimbursements, as of 2001 (inclusive) 228
- 13.11 Various R&TD programmes subsequently integrated into the multiannual framework programmes 231
- 13.12 Aims of EU R&TD multiannual framework programmes: trends from 1984 to 2006 232
- 13.13 Annual R&TD expenditures at Community level, 1984–2006 234
- 14.1 EU 15 tax structure, 2000 243
- 14.2 VAT in EU member states, 2002 245
- 14.3 Cigarette taxation in EU member states, 2002 246
- 14.4 Alcohol taxation in EU member states, 2002 247
- 14.5 Taxes on petrol and diesel fuel 248
- 14.6 EU taxes on company earnings in 2002 250
- 14.7 EU 15: effective average corporation tax rates (EATR) 251
- 15.1 Summary of the policy of EC 9 259
- 16.1 The EU energy objectives for 1985, 1990, 1995 and 2010 274
- 16.2 Composition of primary energy supply, EU, 2000 280
- 16.3 Projected oil and gas consumption, share of imported energy in EU energy consumption, 1998–2030 280
- 16.4 World crude oil proven reserves, production by region, 2001 281
- 16.5 World natural gas proven reserves and marketed production, by region, 2001 281
- 16.6 Herfindahl index (H), numbers equivalent ($1/H$), market share of leading supplier ($CR1$), and share of public ownership (%), EU electric power generation, selected member states, 1999 284
- 16.7 1998 prices per kilowatt hours 285
- 17.1 Greenhouse gas emission changes from 1990 to 2010 299
- 18.1 Barriers to trade and investment 315

- 18.2 Direct investment flows of EU countries, 1987–2000 316
- 18.3 US direct investment in the EU, 1980–2001 321
- 18.4 Mergers and acquisitions involving EU firms 322
- 18.5 The ten largest deals involving EC enterprises in 2000 and 2001 323
- 18.6 Inflows of foreign workers in European countries 326
- 18.7 Stock of foreign labour by nationality 327
- 18.8 Labour force by nationality in EU member states, 1990, 1995 and 1997 328
- 19.1 Expenditure at different levels of government in federal states 337
- 19.2 Federal government expenditure by main function 337
- 19.3 The distribution of GDP per capita in the EU and GSP per capita in the USA 338
- 19.4 Tax revenue of different levels of government in federal states 340
- 19.5 Tax systems: federal systems and the EU 341
- 19.6 Sources of EU revenue, 2000 and 2001 342
- 19.7 EU expenditure, 2000 and 2001 344
- 19.8 EU financial perspective for 2000–2006 350
- 20.1 Share of agriculture in total labour force and GDP 356
- 20.2 Size distribution of agricultural holdings 357
- 21.1 Fish catch, 1999 392
- 21.2 A comparison of total allowable catches, 1998–2003 396
- 22.1 Indicative allocations, by Objective and member state for the 2000–2006 structural funds 415
- 22.2 EU budget commitments, 2000–2006 418
- 24.1 The EU in world merchandise trade, 2001 451
- 24.2 EU merchandise trade by area, 2001 452
- 24.3 Commodity composition of EU trade with major trading groups, 2001 452
- 24.4 Extra-EU trade in selected products, 1980 and 2001 455
- 24.5 Production-weighted average applied MFN tariff rates in selected countries, 1996 457
- 24.6 The EU's network of preferential trade agreements, 2000 461
- 25.1 Growth of real per capita GDP by region, 1971–2015 472
- 25.2 Commitments of EU funds for external relations by main instruments in 2000 485

LIST OF TABLES

- 25.3 Net disbursements of ODA to EU regional programmes 486
- 25.4 Evolution of EDF and EIB resources 488
- 26.1 Basic data for applicant CEECs and EU member states, 1998 500
- 26.2 Main indicators of economic structure in 2001 (as of 3 September 2002) 501
- 26.3 Financial framework for enlargement agreed at Copenhagen – total commitment appropriations, 2004–2006 503

- 26.4 Financial package for maximum enlargement-related commitments, 2004–2006, for 10 new member states agreed at Copenhagen 504
- 26.5 Structural indicators in the accession countries, 2001 506
- 27.1 EC intra-area tariff reductions 514
- 27.2 The establishment of the CET 514
- 27.3 New members' intra-tariff reductions 516
- 27.4 Approaching the CET 517
