

# BRIEF CONTENTS

Preface

xviii

## PART I BACKGROUND TO RESEARCH

- |                                       |    |
|---------------------------------------|----|
| 1. About Social Science               | 3  |
| 2. The Foundations of Social Research | 29 |
| 3. Preparing for Research             | 65 |

## PART II RESEARCH DESIGN

- |   |     |
|---|-----|
| 4. Research Design: Experiments and Experimental Thinking | 103 |
| 5. Sampling   | 143 |

## PART III DATA COLLECTION

- |  |     |
|--|-----|
| 6. Interviewing: Unstructured and Semistructured | 189 |
| 7. Structured Interviewing                       | 227 |
| 8. Scales and Scaling                            | 285 |
| 9. Participant Observation                       | 317 |
| 10. Direct and Indirect Observation              | 375 |

**PART IV  
DATA ANALYSIS**

<b>11. Introduction to Qualitative and Quantitative Analysis</b>	<b>417</b>
<b>12. Qualitative Data Analysis I: Text Analysis</b>	<b>437</b>
<b>13. Qualitative Data Analysis II: Models and Matrices</b>	<b>473</b>
<b>14. Univariate Analysis</b>	<b>501</b>
<b>15. Bivariate Analysis: Testing Relations</b>	<b>545</b>
<b>16. Multivariate Analysis</b>	<b>613</b>
<b>Appendix A: Table of Random Numbers</b>	<b>A1</b>
<b>Appendix B: Table of Areas under a Normal Curve</b>	<b>A4</b>
<b>Appendix C: Student's <i>t</i> Distribution</b>	<b>A7</b>
<b>Appendix D: Chi-Square Distribution Table</b>	<b>A8</b>
<b>Appendix E: F Table for the .05 Level of Significance</b>	<b>A10</b>
<b>F Table for the .01 Level of Significance</b>	<b>A12</b>
<b>Appendix F: Resources for Research</b>	<b>A14</b>
<b>References</b>	<b>R1</b>
<b>Index</b>	<b>I1</b>
<b>About the Author</b>	<b>D1</b>

# DETAILED CONTENTS

<b>Preface</b>	<b>xviii</b>
Goals and Philosophy	xviii
What's in This Book?	xix
Acknowledgments	xxii

## **PART I BACKGROUND TO RESEARCH**

<b>1. About Social Science</b>	<b>3</b>
Introduction	4
The Social Science Success Story	4
What Are the Social Sciences?	6
Some History of Methods in Social Research	7
Epistemology: Different Ways of Knowing	8
The Norms of Science	10
The Development of Science	10
The Development of Social Science	13
Early Positivism: Quételet, Saint-Simon, and Comte	14
Later Positivism: The Vienna Circle	17
The Reaction Against Positivism	18
About Numbers and Words: The Qualitative/Quantitative Split	20
Ethics and Social Science	21

■ Key Concepts	24
■ Summary	25
■ Exercises	26
■ Further Reading	27
<b>2. The Foundations of Social Research</b>	<b>29</b>
Introduction	30
Variables	30
Measurement and Concepts	34
Conceptual and Operational Definitions	35
Levels of Measurement	41
Units of Analysis	45
Validity, Reliability, Precision, and Accuracy	46
Cause and Effect	53
The Kalyrnian Case: Explaining Why People Risk Their Lives	57
■ Key Concepts	59
■ Summary	60
■ Exercises	61
■ Further Reading	63
<b>3. Preparing for Research</b>	<b>65</b>
Introduction	66
The Ideal Research Process	66
A Realistic Approach	66
The Ethics of Social Research	70
Theory: Explanation and Prediction	74
A Guide to Research Topics, Anyway	82
The Literature Search	87
Meta-Analysis	92
■ Key Concepts	95
■ Summary	96
■ Exercises	97

## PART II RESEARCH DESIGN

<b>4. Research Design: Experiments and Experimental Thinking</b>	<b>103</b>
Introduction	104
Kinds of Experiments	104
Randomized Experiments	105
Internal and External Validity	108
Kinds of Confounds: Threats to Validity	109
Controlling for Threats to Validity	112
Thought Experiments	123
True Experiments	124
Natural Experiments	127
Naturalistic Experiments	130
Are Field Experiments Ethical?	133
Factorial Designs: Main Effects and Interaction Effects	135
■ Key Concepts	138
■ Summary	139
■ Exercises	140
■ Further Reading	141
<b>5. Sampling</b>	<b>143</b>
Introduction	144
What Are Samples and Why Do We Need Them?	144
Why the U.S. Still Has a Census	145
It Pays to Take Samples and to Stick with Them	146
What Kinds of Samples Are There?	147
Probability Sampling	147
How Big Should a Sample Be?	160
Probability Distributions	162
The Central Limit Theorem	164
The Standard Error and Confidence Intervals	166

Small Samples: The <i>t</i> Distribution	170
Estimating Proportions	172
Nonprobability Sampling	174
And Finally	180
■ Key Concepts	181
■ Summary	182
■ Exercises	184
■ Further Reading	185

### PART III DATA COLLECTION

<b>6. Interviewing: Unstructured and Semistructured</b>	<b>189</b>
Introduction	190
Interview Control	190
Unstructured Interviewing	193
Probing	196
Learning to Interview	201
Presentation of Self	203
Using a Tape Recorder	204
Focus Groups	207
Response Effects	212
Accuracy	215
■ Key Concepts	220
■ Summary	221
■ Exercises	223
■ Further Reading	224
<b>7. Structured Interviewing</b>	<b>227</b>
Introduction	228
Questionnaires and Survey Research	228
Face-to-Face, Self-Administered, and Telephone Interviews	229

When to Use What	237
Using Interviewers	238
Closed- vs. Open-Ended: The Problem of Threatening Questions	240
Question Wording and Format	241
Translation and Back Translation	246
The Response Rate Problem	248
Improving Response Rates: Dillman's Total Design Method	250
Steps in Dillman's Method	250
Pretesting and Learning from Mistakes	254
Cross-Sectional and Longitudinal Surveys	255
Some Specialized Survey Techniques	258
Cultural Domain Analysis	264
■ Key Concepts	277
■ Summary	278
■ Exercises	280
■ Further Reading	282
<b>8. Scales and Scaling</b>	<b>285</b>
Introduction	286
Simple and Complex Scales	286
Indexes	288
Guttman Scales	289
Likert Scales	294
Testing for Unidimensionality with Factor Analysis	300
Scales Get Simpler and More Widely Used over Time	302
Semantic Differential Scales	303
Some Other Scales	305
Magnitude Scaling	307
And Finally	311
■ Key Concepts	313
■ Summary	314

Exercises	315
Further Reading	316
<b>9. Participant Observation</b>	<b>317</b>
Introduction	318
What Is Participant Observation?	318
Some Background and History	319
Fieldwork Roles	321
Validity—Again	324
Entering the Field	326
The Skills of a Participant Observer	328
Gender, Parenting, and Other Personal Characteristics	337
Sex and Fieldwork	339
Surviving Fieldwork	339
The Stages of Participant Observation	341
Ethnographic Informants	345
The Cultural Consensus Model	350
About Field Notes	355
The Four Types of Field Notes: Jottings, the Diary, the Log, and the Notes	357
Is Participant Observation Science?	365
The Front Edge of Social Science: Combining Methods	365
Key Concepts	368
Summary	369
Exercises	371
Further Reading	373
<b>10. Direct and Indirect Observation</b>	<b>375</b>
Introduction	376
Strategies for Direct Observation	376
Continuous Monitoring	376
Coding Continuous Monitoring Data	382
Comparative Research: The Six Culture Study	385

Technology and Continuous Monitoring	387
Spot Sampling and Time Allocation Studies	388
Experience Sampling	393
A Few Final Words on Reactive Observation	395
Disguised Field Observation	397
Grades of Deception	401
Indirect Observation: Behavior Trace Studies	403
■ Key Concepts	407
■ Summary	408
■ Exercises	410
■ Further Reading	412

## PART IV DATA ANALYSIS

<b>11. Introduction to Qualitative and Quantitative Analysis</b>	<b>417</b>
Introduction	418
Qualitative/Quantitative	418
What's Analysis?	419
Data Matrices	421
Presenting Results in Matrices and Tables	423
Presenting Results: Causal Maps/Flow Charts	427
Database Management	429
■ Key Concepts	432
■ Summary	433
■ Exercises	435
■ Further Reading	436
<b>12. Qualitative Data Analysis I: Text Analysis</b>	<b>437</b>
Introduction	438
About Texts	438
Hermeneutics/Interpretive Analysis	439
Narrative and Performance Analysis	441

Discourse Analysis	442
Grounded Theory	443
Content Analysis	456
Cross-Cultural Content Analysis: The Human Relations Area Files	461
Combining Grounded Theory and Content Analysis Approaches	464
Computers and Text Analysis	466
■ Key Concepts	467
■ Summary	468
■ Exercises	470
■ Further Reading	471
<b>13. Qualitative Data Analysis II: Models and Matrices</b>	<b>473</b>
Introduction	474
Ethnographic Decision Models	474
Representing Complicated Models with Tables and IF-THEN Charts	478
Folk Taxonomies (Taxonomic Analysis)	483
Componential Analysis	490
Analytic Induction and Boolean Tests	493
■ Key Concepts	496
■ Summary	497
■ Exercises	498
■ Further Reading	499
<b>14. Univariate Analysis</b>	<b>501</b>
Introduction	502
Managing Raw Data	502
Frequency Distributions	505
Measures of Central Tendency	507
Shape: Visualizing Distributions	517
Measures of Dispersion I: Range and Interquartile Range	526
Measures of Dispersion II: Variance and the Standard Deviation	526

The Logic of Hypothesis Testing	529
So, What About the Mean of WELF94?	531
More About $z$ -Scores	534
The Univariate Chi-Square Test	535
Key Concepts	538
Summary	539
Exercises	541
Further Reading	543
<b>15. Bivariate Analysis: Testing Relations</b>	<b>545</b>
Introduction	546
The $t$ -Test: Comparing Two Means	546
Analysis of Variance: A Test for Two or More Means	549
Direction and Shape of Covariations	554
Cross-Tabs of Nominal Variables	557
Correlation and Cause: Antecedent and Intervening Variables	558
Lambda and the PRE Principle	562
Chi-Square	563
The Special Case of the $2 \times 2$ Table	567
Fisher's Exact Test	569
The Odds Ratio	570
Gamma: The All-Purpose PRE Measure of Association for Ordinal Variables	571
Yule's $Q$	574
What to Use for Nominal and Ordinal Variables	576
Correlation: The Powerhouse Statistic for Covariation	576
Spearman's $r$	576
Pearson's $r$	581
Regression	582
Calculating $r$ and $r^2$	586

Testing the Significance of $r$	587
Nonlinear Relations	589
Calculating Eta Squared	592
Statistical Significance, The Shotgun Approach, and Other Issues	593
■ Key Concepts	604
■ Summary	605
■ Exercises	608
■ Further Reading	612
<b>16. Multivariate Analysis</b>	<b>613</b>
Introduction	614
The Elaboration Method	614
Partial Correlation	615
Multiple Regression	620
Two Examples of Multiple Regression	625
Path Analysis	627
Multicollinearity	632
Factor Analysis	634
Multidimensional Scaling	639
Cluster Analysis	645
Discriminant Function Analysis	648
And Finally	650
■ Key Concepts	652
■ Summary	653
■ Exercises	656
■ Further Reading	658
<b>Appendix A: Table of Random Numbers</b>	<b>A1</b>
<b>Appendix B: Table of Areas under a Normal Curve</b>	<b>A4</b>
<b>Appendix C: Student's <math>t</math> Distribution</b>	<b>A7</b>
<b>Appendix D: Chi-Square Distribution Table</b>	<b>A8</b>

<b>Appendix E: <i>F</i> Table for the .05 Level of Significance</b>	<b>A10</b>
<b><i>F</i> Table for the .01 Level of Significance</b>	<b>A12</b>
<b>Appendix F: Resources for Research</b>	<b>A14</b>
Statistical Packages	A14
Text Analysis Packages	A15
Field Observation Packages	A15
Internet Addresses for Some Professional and Scholarly Associations in the Social Sciences	A15
