Preface	xi
Acknowledgments	xix
<b>I Overview and Background</b>	<b>1</b>
<b>1 Why Organizations Don't "Know What They Know": Cognitive and Motivational Factors Affecting the Transfer of Expertise</b>	<b>3</b>
Pamela J. Hinds and Jeffrey Pfeffer	
1.1 Cognitive Limitations	4
1.2 Motivational Limitations	10
1.3 Overcoming Barriers to Transferring Expertise	17
1.4 The Role of Technology	21
1.5 Conclusion	22
<b>2 A Critical Evaluation of Knowledge Management Practices</b>	<b>27</b>
Marleen Huysman and Dirk de Wit	
2.1 Knowledge Sharing and Organizational Learning	29
2.2 Introduction to the Research	33
2.3 Knowledge Sharing in Practice	35
2.4 Analysis: Identifying Traps and Ways to Avoid Them	41
2.5 Concluding Remarks	51
<b>3 Coming to the Crossroads of Knowledge, Learning, and Technology: Integrating Knowledge Management and Workplace Learning</b>	<b>57</b>
Bill Penuel and Andrew Cohen	
3.1 Different Learning Processes for Different Situations	58
3.2 Knowledge Management Processes That Support Newcomer Learning	61

3.3	Knowledge Management Processes That Support Expert Learning	67
3.4	Conclusion	73
<b>II</b>	<b>Studies of Expertise Sharing in Organizations</b>	<b>77</b>
<b>4</b>	<b>Emergent Expertise Sharing in a New Community</b>	<b>81</b>
	Geraldine Fitzpatrick	
4.1	The Case	83
4.2	The Work	86
4.3	Bootstrapping through Getting the Work Done	91
4.4	Expertise as Embodied Knowledge	101
4.5	Conclusion	106
<b>5</b>	<b>Sharing Expertise: Challenges for Technical Support</b>	<b>111</b>
	Volkmar Pipek, Joachim Hinrichs, and Volker Wulf	
5.1	Expertise Sharing in Maintenance Engineering	113
5.2	Expertise Sharing in a Network of Trainers and Consultants	121
5.3	Discussion	128
5.4	Conclusion	133
<b>6</b>	<b>Locating Expertise: Design Issues for an Expertise Locator System</b>	<b>137</b>
	Kate Ehrlich	
6.1	Leveraging Knowledge in an Organization	138
6.2	Requirements for the Design of an Expertise Locator	142
6.3	Expertise Locator Design	145
6.4	Discussion	155
<b>7</b>	<b>Who's There? The Knowledge-Mapping Approximation Project</b>	<b>159</b>
	Mark S. Ackerman, James S. Boster, Wayne G. Lutters, and David W. McDonald	
7.1	The KMA Project: Looking for Approximation Techniques	161
7.2	Pilot Study Site	162
7.3	Data Collection	164
7.4	Findings from the Pilot Study	170
7.5	Conclusions and Future Work	175

- 8 Enabling Communities of Practice at EADS Airbus 179**  
 Roland Haas, Wilfried Aulbur, and Sunil Thakar
- 8.1 Knowledge Management 179
  - 8.2 Communities of Practice 184
  - 8.3 A Web-Based System for Collecting and Distributing Knowledge 191
  - 8.4 Lessons Learned and Experiences Gathered 195
  - 8.5 Summary 197
- III Exploring Technology for Sharing Expertise 199**
- 9 Using a Room Metaphor to Ease Transitions in Groupware 203**  
 Saul Greenberg and Mark Roseman
- 9.1 Gaps in Groupware 204
  - 9.2 Features Inherent in a Room Metaphor 207
  - 9.3 TeamWave Workplace 214
  - 9.4 Transitions between Individual and Group Work 221
  - 9.5 Transitions between Synchronous and Asynchronous Collaboration 226
  - 9.6 The Transition from Being Aware of Who Is Around to Working Together in Real Time 233
  - 9.7 The Transition from a Technical Space to a Social Place for Work 238
  - 9.8 Related Work 245
  - 9.9 Summary 248
- 10 NewsMate: Providing Timely Knowledge to Mobile and Distributed News Journalists 257**  
 Henrik Fagrell
- 10.1 Use Scenario 259
  - 10.2 The NewsMate System 265
  - 10.3 Related Systems 268
  - 10.4 Discussion 270
- 11 Supporting Informal Communities of Practice within Organizations 275**  
 R. T. Jim Eales
- 11.1 Related Work 277

- 11.2 Learning in the Wild 278
- 11.3 Collaborative Support Systems 279
- 11.4 The Importance of Demonstrations 288
- 11.5 Outline of a Collaborative Support System 291
- 11.6 Design Issues 293
- 11.7 Conclusion 294
- 12 Knowledge Communities: Online Environments for Supporting Knowledge Management and Its Social Context 299**  
Thomas Erickson and Wendy A. Kellogg
- 12.1 Knowledge Work as Social Work 300
- 12.2 Knowledge Communities 305
- 12.3 Concluding Remarks 322
- 13 Expert-Finding Systems for Organizations: Problem and Domain Analysis and the DEMOIR Approach 327**  
Dawit Yimam-Seid and Alfred Kobsa
- 13.1 Problem Analysis 328
- 13.2 Automatic Expert Finders 333
- 13.3 Positioning Automatic Expert Finders 336
- 13.4 Domain Analysis 338
- 13.5 The DEMOIR Approach 348
- 13.6 Conclusion and Future Research 353
- 14 Automated Discovery and Mapping of Expertise 359**  
Mark Maybury, Ray D'Amore, and David House
- 14.1 Previous Work 360
- 14.2 Evolving Framework for Expertise Management 362
- 14.3 MITRE's MII Expert Finder 365
- 14.4 MII XperNet 371
- 14.5 Lessons Learned/Future Work 378
- 15 OWL: A System for the Automated Sharing of Expertise 383**  
Frank Linton
- 15.1 Recommender Systems 384
- 15.2 User Observation 387
- 15.3 Individualized Recommendations 391
- 15.4 Discussion 395

15.5 Further Work    397

15.6 Summary    400

List of Contributors    403

Index    407
