<b>Preface</b> .....	xiii
----------------------	------

## **PART I. SEX DIFFERENCES: FACTS AND MYTHS**

<b>Chapter 1. Gender Segregation in the Workplace: Continuities and Discontinuities from Childhood to Adulthood</b> .....	3
---	---

*Eleanor E. Maccoby*

The Prevalence of Gender Segregation in Childhood .....	5
Causal Factors Underlying Gender Segregation .....	6
Distinctive Cultures in Boys' and Girls' Groups .....	8
Group Membership and In-Group Loyalties .....	9
Adolescence and Cross-Sex Attraction .....	10
References .....	15

<b>Chapter 2. Effects of Labor Force Participation on Sex Differences in Mortality and Morbidity</b> .....	17
--	----

*Ingrid Waldron*

Introduction .....	17
Sex Differences in Mortality and Morbidity .....	18
Contributions of Occupational Hazards to Sex Differences in Health .....	21

Health-Related Behavior: A Possible Link between Labor Force Participation and Sex Differences in Health .....	22
Effects of Labor Force Participation on Women's and Men's Health .....	24
Labor Force Participation Rates and Sex Differences in Mortality Rates: Ecological Analyses .....	29
Conclusions .....	34
References .....	35

**Chapter 3. The Psychophysiology of Sex Differences  
as Related to Occupational Status .....** 39

*Marianne Frankenhaeuser*

A Biopsychosocial Framework .....	39
Changing Patterns of Sex Differences in Reactivity .....	41
Stress On and Off the Job in White-Collar Workers at Volvo .....	45
Reactivity and "Unwinding" .....	56
Concluding Remarks .....	57
References .....	59

**PART II. WORK AND FAMILY: MULTIPLE ROLES**

**Chapter 4. The Forms of Women's Work .....** 65

*Robert L. Kahn*

Introduction .....	65
The Forms of Work .....	65
Patterns of Productive Behavior in the United States .....	71
Causes and Consequences of Productive Work .....	78
Implications for Policy .....	81
References .....	82

**Chapter 5. Coping with Role Overload .....** 85

*Camille Wortman, Monica Biernat, and Eric Lang*

Introduction .....	85
Theoretical Basis for the Proposed Work .....	86
Overview of Research Program .....	87

Study 1: Role Strain and Conflict in Married Women Professionals  
 with Young Children ..... 89  
 Findings of the Study ..... 93  
 Sex Differences in Combining Work and Family:  
 Preliminary Analyses of Data from the Physician Study ..... 104  
 Future Research Directions ..... 105  
 References ..... 108

**Chapter 6. The Relationship between Women’s Work and  
 Family Roles and Their Subjective Well-Being and  
 Psychological Distress ..... 111**

*Rosalind C. Barnett and Nancy L. Marshall*

Overview ..... 111  
 The Study ..... 114  
 I. Which Aspects of Work Are Related  
 to Mental-Health Measures? ..... 116  
 II. Does Family-Role Occupancy Affect the Relationship between  
 the Mental-Health Measures and the Work-Reward and Work-  
 Concern Factors? ..... 122  
 III. Does Family-Role Quality Affect the Relationship between  
 Mental-Health Measures and Work-Reward and Work-Concern  
 Factors? ..... 126  
 Discussion and Conclusions ..... 133  
 References ..... 135

**PART III. WORK LOAD AND CARDIOVASCULAR HEALTH**

**Chapter 7. Women, Work-Related Stress, and Smoking ..... 139**

*Margaret A. Chesney*

Prevalence of Cigarette Smoking among Women ..... 139  
 Health Consequences of Smoking ..... 141  
 Smoking and Work ..... 144  
 The Women and Health Study ..... 144  
 Stress and Smoking ..... 145  
 Smoking and Affect Regulation ..... 147  
 A Model of Stress, Distress, and Smoking ..... 149

Implications for Smoking Cessation Programs .....	151
References .....	152

<b>Chapter 8. The Effect of Job Demands, Job Control, and New Technologies on the Health of Employed Women: A Review .....</b>	<b>157</b>
--	------------

*Suzanne G. Haynes*

Introduction .....	157
Empirical Support for the Job Strain Model in Women .....	158
Health Effects of Clerical Employment .....	160
Health Effects of VDT Work .....	161
Health Effects of Nursing Occupations .....	166
Future Research .....	167
References .....	168

<b>Chapter 9. Occupational Stress and Blood Pressure: Studies in Working Men and Women .....</b>	<b>171</b>
--	------------

*Thomas G. Pickering, Gary D. James, Peter L. Schnall, Yvette R. Schussel,  
Carl F. Pieper, William Gerin, and Robert A. Karasek*

Use of Ambulatory Blood Pressure Monitoring to Study Psychosocial Influences on Blood Pressure .....	172
Use of Echocardiography for Studying the Influence of Psychological Factors on the Heart .....	174
The Role of Occupational Stress in Raising Blood Pressure .....	175
Are There Gender Differences in the Associations between Stress and Blood Pressure? .....	179
Conclusions .....	181
References .....	183

<b>Chapter 10. On Cardiovascular Health in Women: Results from Epidemiological and Psychosocial Studies in Sweden .....</b>	<b>187</b>
---	------------

*Töres Theorell*

Introduction .....	187
International Trends in Coronary Heart Disease Mortality for Men and Women .....	188

Job Characteristics of Different Occupations: Associations on an Aggregated Level .....	189
Comparison of Risk Factors between Men and Women in the Same Occupations .....	195
Personality Characteristics and Coronary Heart Disease in Women .....	200
References .....	203

#### **PART IV. INTERACTION BETWEEN WOMEN'S WORK AND REPRODUCTIVE ISSUES**

<b>Chapter 11. Reproductive Technologies, Women's Health, and Career Choices .....</b>	<b>207</b>
--	------------

*Kerstin Hagenfeldt*

Control of Fertility .....	207
Contraceptive Practice .....	209
Infertility .....	215
Conclusions .....	221
References .....	222

<b>Chapter 12. Women, Work, and Menopause .....</b>	<b>225</b>
---	------------

*Philip M. Sarrel*

Introduction .....	225
Meanings of the Menopause .....	227
The Significance of Ovarian Hormones .....	228
Work, Social Loss, and Menopause Symptoms .....	230
Yale Mid-Life Study Findings Regarding Menopause Symptoms and Work .....	233
Conclusions .....	235
References .....	236

<b>Chapter 13. Premenstrual Distress: Implications for Women's Working Capacity and Quality of Life .....</b>	<b>239</b>
---	------------

*Aila Collins*

Methodological Problems .....	241
-------------------------------	-----

Psychological Correlates of Premenstrual Syndrome .....	241
Biochemical Factors .....	243
Does PMS Affect Women's Working Capacity and Quality of Life? .....	244
A Study of Women with Premenstrual Symptoms: Psychological Characteristics and Occupational Stress .....	245
Conclusions .....	251
References .....	253

## PART V. CONCLUSION

<b>Chapter 14. Summary and Implications for Future Research ...</b>	<b>257</b>
---	------------

*Cary L. Cooper*

<b>Index .....</b>	<b>263</b>
