

Table of contents

1. Introduction	1
2. The structure of the banking system in the euro area and its implications for the role of banks in monetary policy transmission	4
2.1 The structure of the banking system in the euro area	4
2.2 Some conjectures on the role of banks in monetary policy transmission	11
3. The model	14
4. Evidence from BankScope data	18
4.1 Evidence on the aggregate euro area level	19
4.2 Evidence on single countries in a pooled regression	21
4.3 Evidence on France, Germany, Italy and Spain in separate regressions	22
5. Evidence from Eurosystem datasets	23
6. Macroeconomic relevance	28
7. Conclusions	29

List of tables

Table 1:	Financial structures in the euro area and the US (% of GDP), 1999	1
Table 2:	Banking structure of the euro area countries pre EMU, 1997	7
Table 3:	The structure of national financial systems	8
Table 4:	Comparison of the coverage of BankScope with the full population (1998)	18
Table 5:	Long-run coefficients estimated in model (7a), BankScope data for the euro area	20
Table 6a:	Long-run coefficients estimated in model (7), national datasets: France	24
Table 6b:	Long-run coefficients estimated in model (7), national datasets: Germany	24
Table 6c:	Long-run coefficients estimated in model (7), national datasets: Italy	25
Table 6d:	Long-run coefficients estimated in model (7), national datasets: Spain	25
Table 7:	Percentage change of loans following a one percent change in interest rates	29
Table A1:	Initial sample coverage	34
Table A2:	Econometric samples coverage	35
Table A3:	Data description with respect to relative size – December 1998	37
Table A4:	Data description with respect to absolute size – December 1998	38
Table A5:	Data description with respect to liquidity – December 1998	39
Table A6:	Comparing the coverage of BankScope with the actual population in the Eurosystem datasets (1998)	40

Table A7a: Long-run coefficients estimated in model (7a), BankScope data: France	41
Table A7b: Long-run coefficients estimated in model (7a), BankScope data: Germany	41
Table A7c: Long-run coefficients estimated in model (7a), BankScope data: Italy	42
Table A7d: Long-run coefficients estimated in model (7a), BankScope data: Spain	42
Table A8a: Long-run coefficients estimated in models (8), BankScope data: Euro area	42
Table A8b: Long-run coefficients estimated in models (8), BankScope data: France	43
Table A8c: Long-run coefficients estimated in models (8), BankScope data: Germany	43
Table A8d: Long-run coefficients estimated in models (8), BankScope data: Italy	43
Table A8e: Long-run coefficients estimated in models (8), BankScope data: Spain	44
Table A9: Long-run coefficients estimated in models (7b), BankScope data	44
Table A10a: Long-run coefficients estimated in models (8), national datasets: France	45
Table A10b: Long-run coefficients estimated in models (8), national datasets: Germany	45
Table A10c: Long-run coefficients estimated in models (8), national datasets: Italy	45
Table A10d: Long-run coefficients estimated in models (8), national datasets: Spain	46
Table A11: Percentage change of loans following a one percent change in interest rates, obtained from BankScope data	46
