Abstract	V
1. Introduction.....	1
2. Identification of key performance indicators.....	4
2.1. The model.....	5
2.2. Derivation of valuation multiples	8
2.3. Empirical estimation of key performance indicators	11
a) Control for growth.....	11
b) Control for profitability.....	13
c) Control for risk?	14
3. Empirical analyses	15
3.1. Analysis design	15
a) Sample description and descriptive statistics.....	15
b) Basis for the evaluation of different multiples methods	17
c) Method to select comparable companies	19
3.2. Empirical results.....	20
a) Choice of basis of reference.....	20
b) Selection of comparable companies.....	22
c) Selection of an adequate estimator.....	25
4. Conclusion	31
