Part I. Introduction to Crime Analysis and Crime Mapping	1
1. Introduction and Overview	3
2. Crime Analysis Defined	5
Definition of Crime Analysis	5
The Crime Analysis Process	9
Collection	9
Collation	10
Analysis	11
Data Modification Subcycle	11
Dissemination	12
Feedback	13
Summary	13
Types of Crime Analysis	13
Intelligence Analysis	13
Criminal Investigative Analysis	14
Tactical Crime Analysis	14
Strategic Crime Analysis	15
Administrative Crime Analysis	16
Summary Points	16
Exercises	17
3. The Crime Analysis Profession	19
History of Crime Analysis	19
Beginnings of Crime Analysis	20
United States: 1900–1970	20
United States: 1970 to Present	21
Current State of Crime Analysis	24
Crime Analysis as a Career Track	28
Crime Analyst Qualifications and Job Descriptions	29
Interns/Volunteers	30
Crime Analysis Assistant/Technician	30
Entry-Level Crime Analyst	31
Experienced Crime Analyst	31

Specialty Crime Analyst	31
Crime Analysis Supervisor	32
CAU Organizational Chart	32
Summary Points	33
Exercises	34
4. Introduction to Crime Mapping	37
Definitions: GIS and Crime Mapping	37
Geographic Features	39
Point Features	39
Line Features	39
Polygon Features	40
Image Features	40
Types of Crime Mapping	40
Single-Symbol Mapping	42
Buffers	43
Graduated Mapping	43
Chart Mapping	44
Density Mapping	45
Interactive Crime Mapping	47
History of Crime Mapping	47
Beginnings of Crime Mapping	48
United States: 1900–1970	49
1970 to Present	49
Current State of Crime Mapping	53
Crime Mapping as a Career Track	54
Summary Points	55
Exercises	56
5. Theory and Crime Analysis	59
Environmental Criminology	59
The Crime Triangle	60
Rational Choice Theory	61
Crime Pattern Theory	62
Routine Activities Theory	63
Situational Crime Prevention	64
Repeat Victimization and the 80/20 Rule	65
Displacement and Diffusion of Benefits	67
Displacement of Crime	67
Diffusion of Benefits	68
Opportunity	69
Summary Points	69
Exercises	71

Part II. Data and Technology	73
6. Crime Analysis Data	75
Key Terms	75
Database	75
Secondary Data	75
Primary Data	76
Geographic Data	77
Tabular Data	80
Databases Used in Crime Analysis	81
Tabular Databases	81
Crime Incidents	81
Arrests	82
Calls for Service	83
Accidents	85
Other Databases	86
Geographic Databases	87
Geocoding	88
Data Considerations	91
“Reported” Activity	91
Local and Federal Crime Data Standards	92
Use of Calls-for-Service Data to Study	
Crime Problems	95
Use of Arrest Data to Study Crime	
Problems and Offenders	96
Data Integrity	97
Summary Points	98
Exercises	99
7. Crime Analysis Technology	101
Computer Hardware	101
Data Collection and Storage	101
Computer-Aided Dispatch System	102
Records Management System	102
Geographic Data System	103
Data Collation and Analysis	103
Spreadsheet Software	103
Database Management Software	104
Statistical Software	104
Geographic Information System Software	104
Dissemination	105
Word Processing Software	105
Spreadsheet Software	105

Tactical Crime Analysis Products	159
Summary Points	163
Exercises	164
Part IV. Strategic Crime Analysis	165
10. Analyzing Problems: Definition, Context, and Nature of the Problem	167
What Is a Problem?	167
Developing Hypotheses	170
Context of a Problem	171
Data	171
Agency and Community	172
Research	172
Current Nature of the Problem	173
Frequency or Count	173
Cross-Tabulation	176
Percentage	177
Cross-Tabulation Percentage	177
Percentile	178
Rates	180
Mean and Standard Deviation	183
Summary Points	185
Exercises	187
11. Analyzing Problems: Temporal Analysis, Victimization, and Primary Data Collection	189
Temporal Analysis	189
By Year	189
By Month or Quarter	190
By Week	193
By Time of Day/Day of Week	194
Weighted Time Span Analysis	195
Percentage Change	196
Victims and Repeat Victimization	198
Primary Data Collection	201
Summary Points	203
Exercises	205
12. Analyzing Problems: Spatial Analysis	207
Displaying Data and Statistics	207
By Category	207
By Statistical Classification	208
Natural Breaks	209
Equal Interval	211
Quantile	212
Standard Deviation	213

Graphics Software	105
Publishing Software	105
Presentation Software	106
Internet/Intranet	106
Specialized Crime Analysis Software	106
Summary Points	108
Exercises	109
Part III. Tactical Crime Analysis	111
8. Data Collection and Pattern Identification	113
Collection and Collation of Tactical Crime Analysis Data	113
Crime Report Data	114
Modus Operandi	116
Persons	117
Vehicle	119
Field Information	121
Pattern Identification Methodology	123
Types of Patterns	123
Approaches to Pattern Identification	124
Deduction and Induction	125
Persons Crime and Property Crime	126
Initial Pattern Identification	128
Query Method	129
Trend Hunter Method	132
Pattern Finalization	132
Identifying the Principal Case	133
Identifying Other Key Cases in the Pattern	133
Identifying Additional Related Cases	134
Identifying Investigative Leads	134
Clearing Cases	136
Summary Points	136
Exercises	138
9. Describing, Analyzing, and Disseminating Known Patterns	141
Describing and Analyzing Known Patterns	141
Crime Type and Modus Operandi Analysis	141
Time Series Analysis	142
Exact Time	142
Exact Day of the Week	144
Exact Time of Day/Day of Week	145
Exact Date: Intervals Between Events	145
Weighted Time Span Analysis	148
Spatial Analysis of Patterns	153
Pattern Identification	153

By Manual Method	215
Classification Guidelines and Summary	216
Identifying and Categorizing Hot Spots	218
Identifying Hot Spots	218
Manual Method	218
Graduated Color Mapping	219
Grid Mapping	220
Ellipses	221
Density Mapping	222
Summary of Hot Spot Identification Methods	225
Categorizing Hot Spots	226
Summary Points	228
Exercises	230
13. Strategic Crime Analysis Products	231
Choosing Analysis Information to Disseminate	231
Strategic Crime Analysis Products	233
Types of Products	233
Guidelines for Product Contents	234
Guidelines for Table and Chart Contents	235
Guidelines for Map Contents	237
Templates and Practical Examples	238
Summary Points	239
Exercises	240
Part V. Administrative Crime Analysis	243
14. Administrative Crime Analysis	245
Guidelines for Conducting Administrative Crime Analysis	245
Audience	246
Purpose	246
Context	246
Example	247
Scenario	247
Audience: Police Management	248
Audience: City Council	248
Audience: Community Group	249
Audience: News Media	249
Audience: General	250
Administrative Crime Analysis and the Internet	250
Audiences	252
Types of Information	252
Internet-Specific Issues	254
Privacy and Confidentiality	255
Disclaimers	256
Interactive Mapping	257
Finding Crime Analysis Examples on the Internet	258

Summary Points	258
Exercises	260
Appendix: Sample Problem Analysis Project	261
Glossary	275
References	285
Index	289
About the Author	301
