Preface	xi
Acknowledgments	xv
Introduction	xvii

<b>Part I</b>	<b>Introduction to Physical Activity Epidemiology</b>	<b>1</b>
<b>Chapter 1</b>	<b>Origins of Physical Activity Epidemiology</b>	<b>3</b>
	Ancient History of Physical Activity and Health	3
	Modern History of Physical Activity and Health	6
	Health Goals for the Nation	9
	Summary	10
	Bibliography	11
	Web Sites	12
<b>Chapter 2</b>	<b>Concepts and Methods in Physical Activity Epidemiology</b>	<b>13</b>
	Epidemiologic Measures	14
	Crude, Specific, and Standardized Rates	15
	Research Design in Epidemiologic Studies	16
	Evaluating Associations in Epidemiologic Studies	21
	Models in Physical Activity Epidemiology	25
	Determining Cause in Epidemiologic Studies	28
	Criteria for Causation	30
	Summary	30
	Bibliography	30
	Web Site	31
<b>Chapter 3</b>	<b>Measurement and Surveillance of Physical Activity and Fitness</b>	<b>33</b>
	Why Is Behavioral Epidemiology Important?	34
	What Is Physical Activity?	34
	Measures of Physical Activity	35
	What Is Physical Fitness?	42
	Surveys and Surveillance of Physical Activity	52
	Summary	64
	Bibliography	65
	Web Sites	67

**Chapter 4 All-Cause and Coronary Heart Disease Mortality****71**

- All-Cause Mortality 72
- Cardiovascular Disease Mortality 73
- Coronary Heart Disease Mortality 81
- Physical Activity and Coronary Heart Disease: The Evidence 86
- Summary 106
- Bibliography 107
- Web Site 112

**Chapter 5 Cerebrovascular Disease and Stroke****113**

- Magnitude of the Problem 114
- Risk Factors for Stroke 115
- Etiology of Stroke 117
- Physical Activity and Stroke Risk: The Evidence 118
- Strength of the Evidence 123
- Summary 125
- Bibliography 125
- Web Sites 127

**Chapter 6 Physical Activity and Hypertension****131**

- Magnitude of the Problem 132
- Treating Hypertension 133
- Hypertension Etiology 134
- Autonomic Nervous System 135
- Physical Activity and Reduced Hypertension Risk: The Evidence 136
- Physical Activity and Treatment of Hypertension: The Evidence 139
- Strength of the Evidence 139
- Summary 142
- Bibliography 143
- Web Site 144

**Chapter 7 Physical Activity and Hyperlipidemia****145**

- Magnitude of the Problem 147
- Hyperlipidemia Etiology 152
- Physical Activity and Lipoprotein Levels: The Evidence 153
- Exercise Training and Lipoprotein Levels: The Evidence 155
- Strength of the Evidence 159

Summary 160  
Bibliography 160  
Web Sites 163

**Chapter 8 Physical Activity and Obesity 165**

Magnitude of the Problem 166  
Treatment of Overweight and Obesity 168  
Assessing and Defining Overweight and Obesity 169  
Etiology of Overweight and Obesity: Set Point or Settling Point? 177  
Physical Activity and Overweight or Obesity: The Evidence 178  
Strength of the Evidence 181  
The Ultimate Goal: Weight Loss or Risk Reduction? 184  
Summary 184  
Bibliography 185  
Web Sites 188

**Part IV Physical Activity and Chronic Diseases 189**

**Chapter 9 Physical Activity and Diabetes 191**

Magnitude of the Problem 192  
Demographics of Diabetes 192  
Clinical Features 194  
Health Burden of Diabetes 195  
Risk Factors 196  
Etiology of Type 2 Diabetes 196  
Effects of Physical Activity on Diabetes Risk: The Evidence 197  
Strength of the Evidence 202  
Summary 205  
Bibliography 205  
Web Site 207

**Chapter 10 Physical Activity and Osteoporosis 209**

Magnitude of the Problem 210  
Fractures and Mortality 212  
Sex Differences 212  
Etiology of Osteopenia and Osteoporosis 212  
Risk Factors 214  
Dietary Calcium and Vitamin D 215  
Hormone Replacement Therapy 216  
Bone Measurement Techniques 216  
Physical Activity and Osteoporosis: The Evidence 217  
Strength of the Evidence 226

Summary	229
Bibliography	230
Web Sites	233

## **Part V** Physical Activity, Cancer, and Immunity **235**

### **Chapter 11** Physical Activity and Cancer **237**

Magnitude of the Problem	238
Etiology of Cancer	239
Risk Factors	241
Population Studies of Physical Activity: Specificity of Protection?	242
Colon and Rectal Cancer	243
Breast Cancer	253
Prostate Cancer	269
Bibliography	277
Web Sites	280

### **Chapter 12** Physical Activity and the Immune System **281**

An Abridged History of Immunology	282
The Immune System	283
Immunomodulation by the Nervous and Endocrine Systems	290
Physical Activity and Immunity: The Evidence	293
Mechanisms of Alterations in Monocytes, Granulocytes, and Natural Killer Cells	
After Acute Exercise	297
Exercise and Cytokines	298
Summary	300
Bibliography	301
Web Sites	304

## **Part VI** Physical Activity and Special Concerns **305**

### **Chapter 13** Physical Activity and Mental Health **307**

Depression	308
Magnitude of the Problem	309
Etiology of Depression	310
Brain Neurobiology in Depression	311
Treatment of Depression	315
Physical Activity and Depression: The Evidence	318
Preventing Depression: Population Studies	319
Anxiety Disorders	333
Magnitude of the Problem	334
Etiology of Anxiety Disorders	335

Brain Neurobiology in Anxiety Disorders	336
Treatment of Anxiety Disorders	336
Physical Activity and Anxiety: The Evidence	337
Summary	344
Bibliography	345
Web Site	351

## **Chapter 14 Physical Activity and Disability** **353**

Magnitude of the Problem	354
Primary Disabling Conditions	355
Inactivity and Aging	358
The Disabling Consequences of Inactivity: Conditions Attributable to Inactivity	360
Physical Activity in the Prevention of Disability and Complications	361
Summary	363
Bibliography	363
Web Site	366

## **Chapter 15 Hazards of Physical Activity** **367**

Magnitude of the Problem	368
Evaluating Risk	370
Methods of Research	375
The Injury Definition Problem	376
The Denominator Problem	377
Myocardial Infarction and Sudden Death	378
Joint and Muscle Injury	380
Injury Features	383
Risk of Physical Activity Injuries: The Evidence	383
Other Medical Hazards	383
Psychological Hazards	383
Summary	386
Bibliography	386
Web Sites	389

## **Chapter 16 Adopting and Maintaining a Physically Active Lifestyle** **391**

Barriers to Physical Activity	395
How Do People Decide to Be Active?	398
Environmental Intervention and Self-Regulation	405
Intervention Settings	411
Levels of Intervention	415
Effectiveness of Physical Activity Interventions	416
Recommendations for Community Interventions	419
Mediators of Physical Activity Interventions	425

Features of Physical Activity That Promote Adoption and Maintenance 426

Perceived Exertion 428

Summary 430

Bibliography 431

Web Sites 437

Glossary 439

Index 455

About the Authors 467
