Prologue by Ivor Grattan-Guinness	ix
Preface	
1. The goal of the book	xi
2. The sources	xx
Acknowledgements	xxvii
Chapter I. Antecedents	
1.1 Introduction	1
1.2 Cantor's transfinite numbers	2
1.3 Some reactions	13
Chapter II. A standard interpretation	
2.1 Introduction	19
2.2 The Burali-Forti 'paradox'	21
2.3 Cantor's 'paradox'	32
2.4 Epilog	40
Chapter III. The philosophical and mathematical background to <i>The Principles of Mathematics</i> , 1872-1900	
3.1 Introduction	41
3.2 Russell's childhood and adolescence	43
3.3 Russell as a student at Cambridge	49
3.4 Russell's <i>An Essay on the Foundations of Geometry</i>	56
3.5 Russell's early attempts to write a book on the principles of arithmetic	61

Chapter IV. Russell's discovery of the 'paradoxes'	
4.1 Introduction	81
4.2 The First International Congress of Philosophy, Paris 1900	83
4.3 Russell's writing of the 'first final' draft of <i>The Principles of Mathematics</i> , November - December 1900	87
4.4 The 'paradoxes'	100
4.5 A last effort to finish <i>The Principles of Mathematics</i> , April 1902 - May 1903	117
Chapter V. The 'semantic paradoxes'	
5.1 Introduction	131
5.2 Berry's argument	134
5.3 The König - Zermelo proposition	137
5.4 Richard's contradiction	140
5.5 Polemics within the London Mathematical Society over the Well-Ordering Theorem	143
5.6 König's and Dixon's Arguments	146
Conclusions	151
Appendix. Correspondence	
6.1 Alys Russell	155
6.2 G. E. Moore	160
6.3 David Hilbert	162
6.4 Cesare Burali-Forti	164
6.5 G. G. Berry	166
6.6 Alfred N. Whitehead	185
6.7 G. H. Hardy	188
6.8 E. H. Moore	205
List of tables	207
List of illustrations	209
Bibliography	211
Index	257
