# TABLE OF CONTENTS

**CONTRIBUTORS** ix

**PREFACE** xiii

**ACKNOWLEDGMENTS** xvii

## LANGUAGE IN HEALTHY ADULTS

- Neural Change, Cognitive Reserve and Behavioral Compensation in Rapid Encoding and Memory for Spoken Language in Adult Aging  
  *Arthur Wingfield, Kristen Prentice, Christine K. Koh, and Deborah Little* 3

- Factors Underlying Comprehension of Accented English  
  *Mira Goral, Loraine K. Obler, and Elizabeth Galletta* 23

## LANGUAGE IN BRAIN DAMAGE: DEMENTIA

- Word and Pseudoword Repetition in Alzheimer’s Disease  
  *Marie-Claire Goldblum, Catherine Tzortzis, Thérèse Jahchan, and François Boller* 45

- Sentence Comprehension in Alzheimer’s Disease  
  *David Caplan and Gloria Waters* 61

- Writing Impairments in Alzheimer’s Disease  
  *Guila Glosser and Victor W. Henderson* 77

## LANGUAGE IN BRAIN DAMAGE: APHASIA

- Neurobehavioral Models for Aphasia Rehabilitation  
  *Nancy Helm-Estabrooks* 95

- Self-Determination and Self-Advocacy: New Concepts for Aphasic Individuals and Their Partners  
  *Audrey L. Holland* 109

- Neuroimaging in Severe Aphasia and Outcome Following Treatment with the Nonverbal, Computer-Assisted Visual Communication Program, C-ViC  
  *Margaret A. Naeser, Errol H. Baker, Carole L. Palumbo, Marjorie Nicholas, Michael P. Alexander, Ranji Samaraweera, Malee N. Prete, Steven M. Hodge, and Tamily Weissman* 117
Combinatorial Operations in Sentence Comprehension
*Edgar Zurif and Maria Piñango* 141

Primary Progressive Aphasia: Dissociation of the Loss of Syntax and Semantics in a Biologically Determined Brain Degeneration
*Andrew Kertesz* 149

Pharmacotherapy of Aphasia
*Yutaka Tanaka and David L. Bachman* 159

**UNDERSTANDING COGNITIVE FUNCTIONING THROUGH BRAIN DAMAGE**

The Neural Basis of Working Memory: Evidence from Neuropsychological, Pharmacological and Neuroimaging Studies
*Mark D'Esposito* 179

Language Functions in Parkinson’s Disease: Evidence for a Neurochemistry of Language
*Patrick McNamara and Raymon Durso* 201

Asymmetries of Brain Function in Alcoholism: Relationship to Aging
*Marlene Oscar-Berman and Haline E. Schendan* 213

Cognitive Perspectives on Humor Comprehension after Brain Injury
*Hiram Brownell and Andrew Stringfellow* 241

Anosognosia
*Kenneth M. Heilman, Anna M. Barrett, and John C. Adair* 259

Doctor François: A Case-Study of Deep Dyslexia
*André Roch Lecours, Marie-Josèphe Tainturier, and Sonia Lupien* 269

Dissociating Speed from Automaticity in the Stroop Task: Evidence from a Case of Progressive Posterior Cortical Atrophy
*Kimberly C. Lindfield, Harold Goodglass, and Arthur Wingfield* 299

The Role of Memory in Estimating Time:
A Neuropsychological Analysis
*Marcel Kinsbourne* 315
NEUROBEHAVIORAL ASSESSMENT

Neuropsychiatric Symptoms in Alzheimer’s Disease: Assessment and Management
Susan McPherson and Jeffrey Cummings 327

Cross-Cultural Neuropsychology of Aging and Dementia: An Update
Nicola Wolfe 347

Validation of the Neurobehavioral Evaluation System (NES) in Patients with Focal Brain Damage
Rhea Diamond, Roberta F. White, Maxine Krengel, Karen Lindem, Robert G. Feldman, Carole Palumbo, Richard Letz, Ellen Eisen, and David Wegman 359

Neurology of Aging
Janice E. Knoefel and John C. Adair 381
