Foreword	viii
Preface	x
Acknowledgments	xi
An historical note	xii
Chapter 1 Basic training requirements	1
The future	4
Chapter 2 The written examination	5
The examination format	5
Approaching multiple-choice questions	6
Preparation for the written examination	6
Chapter 3 Suggested topics for the written examination	8
Introduction	8
Important topics for the written examination	8
Chapter 4 An approach to the clinical examination	24
The examination format	24
Preparation for the clinical examination	26
Chapter 5 The long case	29
Chapter 6 Common long cases	33
Cardiovascular system	33
Ischaemic heart disease	33
Revascularisation	38
Infective endocarditis	41
Congestive cardiac failure	46
Hyperlipidaemia	53
Hypertension	58
Heart transplantation	62
Cardiac arrhythmias	67
Respiratory system	77
Bronchiectasis	77
Lung carcinoma	79
Chronic obstructive pulmonary disease (chronic airflow limitation)	83
Sleep apnoea	86
Pulmonary fibrosis	88
Pulmonary hypertension	91
Sarcoidosis	97

Cystic fibrosis	100
Tuberculosis	103
Lung transplant	106
Gastrointestinal system	108
Peptic ulceration	108
Malabsorption	110
Inflammatory bowel disease	115
Colon cancer	119
Chronic liver disease	122
Liver transplantation	130
Haematological system	132
Haemolytic anaemia	132
Thrombophilia	138
Polycythaemia	141
Idiopathic myelofibrosis	145
Essential thrombocythaemia	145
Chronic myeloid leukaemia	146
Lymphomas	146
Multiple myeloma	152
Bone marrow transplantation	155
Rheumatology	159
Rheumatoid arthritis	159
Systemic lupus erythematosus	164
Systemic vasculitis	170
Antiphospholipid syndrome	173
Systemic sclerosis (scleroderma)	174
Endocrine system	177
Osteoporosis (and osteomalacia)	177
Hypercalcaemia	182
Paget's disease of the bone (osteitis deformans)	184
Acromegaly	187
Types 1 and 2 diabetes mellitus	189
Renal system	196
Chronic renal failure	196
Renal transplantation	204
Central nervous system	205
Multiple sclerosis	205
Myasthenia gravis	208
Guillain-Barré syndrome	210
Transient ischaemic attacks and 'funny turns'	212
Infectious disease	215
Pyrexia of unknown origin (PUO)	215
HIV/AIDS	218
Chapter 7 The short case	223
Chapter 8 Common short cases	226
Cardiovascular system	226
Cardiovascular examination	226
Notes on valve diseases	232
Hypertensive examination	246
Marfan's syndrome	248
Oedema	248

Respiratory system	249
Respiratory examination	249
Gastrointestinal system	254
Abdominal examination	254
Haematological system	261
Haemopoietic examination	261
Endocrine system	265
The thyroid gland	265
Panhypopituitarism	267
Cushing's syndrome	269
Acromegaly	272
Addison's disease	273
Diabetes mellitus	276
Hirsutism	278
Rheumatology	279
The hands	279
The knees	281
The feet	281
The back	282
Nervous system	283
Cranial nerves	283
Eyes	286
Notes on the cranial nerves	288
Higher centres	298
Speech	300
Upper limbs	301
Shoulder girdle examination	304
Lower limbs	304
Notes on the neurological examination of the limbs	306
Notes on spinal cord lesions	312
Dystrophia myotonica	317
Gait	317
Cerebellum	319
Parkinson's disease	321
Chorea	322
Chapter 9 Imaging for physician trainees	324
The chest radiograph	324
Computed tomography (CT)	334
Magnetic resonance imaging of the brain and spine	347
Imaging and the rheumatology case	351
Further reading	361
Index	365
