

CONTENTS

<i>History of the foundation of mathematics</i>	
by A. Heyting	1
<i>Topologie in den Niederlanden: das erste Halbjahrhundert</i>	
by H. Freudenthal	22
<i>La théorie des fonctions, reflections historiques</i>	
by A.F. Monna	41
<i>Some details of the history of the Korteweg-De Vries equation</i>	
by F. van der Blij.	54
<i>David Bierens de Haan 1822-1895</i>	
by H.J.M. Bos	65
<i>A thesis of 1834</i>	
by O. Bottema & A.W. Grootendorst	74
<i>Thomas Jan Stieltjes (1856-1894)</i>	
by S.C. van Veen.	84
<i>J.A. Schouten and the tensor calculus</i>	
by D.J. Struik.	96
<i>Gerrit Mannoury and his "Surfaces-images"</i>	
by B.L. van der Waerden	108
<i>Polytopes in the Netherlands</i>	
by H.S.M. Coxeter	116
<i>Der Kalkul der abzählenden Geometrie</i>	
by J.C.H. Gerretsen	142
<i>A theorem of F.J. van den Berg (1833-1892)</i>	
by O. Bottema	161
<i>C.H.D. Buys Ballot, Professor of mathematics</i>	
by O. Bottema	172
<i>"WISKUNDIG GENOOTSCHAP" 1778-1978: some facts and figures concerning two centuries of the Dutch Mathematical Society "Een onvermoeide arbeid komt alles te boven"</i>	
by P.C. Baayen.	177
<i>Some aspects of the development of the Dutch mathematical schoolbook market from 1800 to 1940</i>	
by Joh.H. Wansink	206
