<b>Introduction</b> .....	1
---------------------------	---

---

## Part I Distributions and Complete Spreads

---

<b>1 Lawvere Distributions on Toposes</b> .....	9
1.1 Basic Background in Topos Theory .....	9
1.2 Essential and Locally Connected Geometric Morphisms .....	12
1.3 Topos Frames and Distributions .....	14
1.4 Cosheaves and the Bergman Functor .....	19
1.5 Definable Dominances .....	26
<b>2 Complete Spread Maps of Toposes</b> .....	31
2.1 Fox Complete Spreads .....	32
2.2 Pure Geometric Morphisms .....	36
2.3 Model Amalgamation .....	43
2.4 Discrete Opfibrations and Complete Spreads .....	46
2.5 Properties of Complete Spreads .....	51
<b>3 The Spread and Completeness Conditions</b> .....	55
3.1 Spreads .....	55
3.2 Zero-dimensionality .....	63
3.3 Components-generated Spreads .....	65
3.4 Amalgamation and Fibrations .....	69
3.5 The Completeness Condition .....	72

---

## Part II An Axiomatic Theory of Complete Spreads

---

<b>4 Completion KZ-Monads</b> .....	79
4.1 KZ-Adjointness .....	79
4.2 The Symmetric Monad .....	82
4.3 Algebras and Cocompleteness .....	87

<b>5</b>	<b>Complete Spreads as Discrete M-fibrations</b> .....	99
5.1	Discrete (op)fibrations Relative to $M$ .....	99
5.2	Complete Spreads as Discrete Fibrations .....	101
5.3	A Pullback-preservation Theorem for Presheaves .....	103
<b>6</b>	<b>Closed and Linear KZ-Monads</b> .....	109
6.1	Closed KZ-Monads and Comprehension .....	109
6.2	The Gleason Core and Density Axioms .....	114
6.3	The Twisted Single Universe .....	118
6.4	Linear KZ-Monads .....	120
6.5	Pitts' Theorem Revisited .....	124
<hr/>		
<b>Part III Aspects of Distributions and Complete Spreads</b>		
<hr/>		
<b>7</b>	<b>Lattice-Theoretic Aspects</b> .....	131
7.1	Monadicity Theorem .....	131
7.2	The Structure of Distribution Algebras .....	135
7.3	Relative Stone Locales .....	141
7.4	On a version of the Heine-Borel Theorem .....	150
7.5	The Entire Completion of a Spread via Forcing .....	152
<b>8</b>	<b>Localic and Algebraic Aspects</b> .....	161
8.1	Distributions on Locales .....	161
8.2	Symmetric versus Lower Bagdomain .....	167
8.3	Discrete Complete Spread Structure .....	172
8.4	Algebraic Geometry: Coschemes .....	175
8.5	Distributions on the Jonsson-Tarski Topos .....	183
<b>9</b>	<b>Topological Aspects</b> .....	189
9.1	Locally Constant versus Unramified Coverings .....	190
9.2	Purely Skeletal Geometric Morphisms .....	198
9.3	Branched Covering Toposes .....	202
9.4	The Index of a Complete Spread .....	209
<b>Bibliography</b> .....		217
<b>Index</b> .....		223
