

## Table of Contents

<b>Chapter 1: Learning from Educational Attainment.....</b>	<b>1</b>
1.1 The Objective .....	3
1.2 Central Concepts .....	3
1.3 Methodology and Outline.....	4
1.4 Findings.....	5
<b>Chapter 2: Human Capital In Theories of Growth and Development .....</b>	<b>7</b>
2.1 The Evolution of Modern Growth Theory and Human Capital Theory .....	7
2.1.1 The Origins of Modern Growth Theory .....	8
2.1.2 The Theory of Human Capital .....	12
2.1.3 Crystallizing Human Capital's Role in Models of Growth and Development .....	15
2.2 A Macro-Mincer Model .....	17
2.3 Human Capital in Neoclassical Models of Growth .....	21
2.3.1 The Human Capital Augmented Solow Model .....	22
2.3.2 The Human Capital Augmented Neoclassical Model With Endogenous Saving .....	26
2.3.3 Convergence, Capital Mobility and Human Capital in the Neoclassical Model .....	30
2.4 Human Capital in Models of Endogenous Growth .....	33
2.4.1 Endogenous Growth With External Non-Decreasing Returns.....	33
2.4.1.1 The AK Model.....	33
2.4.1.2 Individual Human Capital Accumulation: The Lucas (1988) model.....	37
2.4.1.3 Firms' Learning By Doing: Knowledge Spillovers From Investment .....	40
2.4.2 Deliberate Technological Progress.....	43
2.4.2.1 R&D and the Evolution of the Global Frontier of Knowledge .....	44
2.4.2.2 The Adoption of Technology .....	48

2.5	Human Capital in Models of Economic Development .....	52
2.5.1	The Big Push .....	52
2.5.2	Threshold Externalities.....	55
2.6	Conclusions About the Concept of Human Capital in Models of Growth and Development .....	58
<b>Chapter 3:</b>	<b>Empirics of Aggregate Income, Growth and Education.....</b>	<b>61</b>
3.1	Benchmarks on Education and Growth.....	61
3.1.1	MRW's (1992) and Barro's (1997) Estimation Equations.....	62
3.1.2	Data Sources and Estimation Procedures for MRW and Barro (1997).....	65
3.1.3	Results from MRW and Barro (1997).....	66
3.1.4	Uncovering Education-Income Relationships.....	69
3.2	Education in Development and Growth Accounting .....	71
3.2.1	Education in Development Accounting .....	71
3.2.2	Education Variables: Stocks or Flows of Human Capital? .....	73
3.2.3	Education in Growth Accounting.....	77
3.2.3.1	The Growth Accounting Methodology .....	78
3.2.3.2	Growth Accounting Regressions and the Education Puzzle .....	80
3.3	Education in Growth Regressions I: Improving MRW.....	82
3.3.1	Transition: From Initial Points to Endpoints.....	82
3.3.2	MRW's Universal, Unobservable Technology.....	83
3.3.3	"A Further Augmentation of the Solow Model..." .....	84
3.3.4	Panel Data Estimation .....	86
3.3.5	Multiple Regimes .....	91
3.4	Education in Growth Regressions II: Beyond MRW.....	95
3.4.1	Education as Determinant of Technology Growth: Innovation and Catching Up.....	96
3.4.2	Technology Catch-Up in a Mincer-Based Production Function.....	99
3.4.3	Ad Hoc Regressions and the Female Education Puzzle.....	102
3.4.3.1	Indirect Education Effects in Barro's Growth Regression.....	103
3.4.3.2	The Female Education Puzzle .....	106
3.4.3.3	The Limits of "Open-Ended Alternative Models".....	108
3.5	Conclusions About Education in Growth and Development Empirics .....	109

<b>Chapter 4: Educational Attainment as a Proxy for Human Capital.....</b>	<b>113</b>
4.1	The Change in Educational Attainment from 1960 to 1990 ..... 114
4.1.1	Average Attainments in 1960 and in 1990 ..... 114
4.1.2	Convergence, Non-Linearity and Upper Bounds in Education..... 117
4.2	The Quality of Education Data ..... 122
4.2.1	The Barro and Lee Education Data: Sources and Construction ..... 122
4.2.2	Data Problems ..... 126
4.2.2.1	Step One: Problems in Raw Data ..... 126
4.2.2.2	Step Two: Problems From Filling Cells Based on Completion Rates ..... 129
4.2.2.3	Step Three: Problems From Accounting For Differences in Duration ..... 131
4.3	The Quality of Schooling and the Valuation of Human Capital Stocks ..... 134
4.3.1	Broad Access to Schooling Versus a High Quality of Education ..... 135
4.3.2	The Effect of School Quality on Educational Attainment ..... 136
4.3.3	Valuing Human Capital Stocks ..... 139
4.3.3.1	Human Capital Stocks Based on the Cost of Education ..... 140
4.3.3.2	Human Capital Stocks Based on Returns to Education ..... 141
4.4	The Interdependence of Education and Technology ..... 143
4.4.1	Learning in Stationary Production Processes ..... 144
4.4.2	Education and Learning in a Stationary World ..... 147
4.4.3	Education and Learning in Light of Technological Change ..... 149
4.4.4	Technology and Education ..... 151
4.5	Conclusions About Educational Attainment's Ability to Proxy Human Capital ..... 154
<b>Chapter 5: Summary and Conclusions for Future Research .....</b>	<b>157</b>
<b>Bibliography.....</b>	<b>161</b>
