

Table of contents

Abbreviations and symbols	IX
Preface	XIII
 CHAPTER 1	
Preliminaries	1
1.1 Introduction	1
1.1.1 The empirical issues	1
1.1.2 The theoretical issues	11
1.2 German quantifiers	13
1.2.1 Criteria of identification	13
1.2.2 The classes of quantifiers investigated	16
1.3 Syntactic assumptions	25
1.3.1 Noun phrases	26
1.3.2 Verb phrases and sentences	30
1.4 Semantic assumptions	32
1.4.1 Names	32
1.4.2 Quantifiers	44
 CHAPTER 2	
Relative scope	51
2.1 Some basic patterns of Q/Q-interaction	51
2.2 The properties determining relative scope	59
2.2.1 Syntactic constellation	60
2.2.2 Grammatical function	65
2.2.3 Thematic property	70
2.2.4 Distributivity	75
2.2.5 Discourse-binding	79
2.2.6 Definiteness	82
2.2.7 Focus	82
2.2.8 Negation attraction	85

2.3	A linear model of relative scope determination	88
2.3.1	Cumulativity, weights and linear equations	88
2.3.2	The model's predictions	94
2.3.2.1	Basic Q/Q-interaction	94
2.3.2.2	Negative quantifiers	99
2.3.2.3	Modified DP-quantifiers	101
2.3.2.4	Adverbial quantifiers	102
2.3.2.5	Wh/Q-interaction	103
2.4	Relative scope and the relation between syntactic and semantic structure	107
2.4.1	A comparison between relative scope and word order determination	107
2.4.1.1	The relevant properties and their interaction	107
2.4.1.2	A linear model for word order in the Mittelfeld	111
2.4.2	The correspondence constraints concerning relative scope	114
2.4.2.1	Digression: Quantifier binding	116
2.5	The status of linear models	121
2.5.1	Can linear models be explanatorily adequate?	121
2.5.2	Linear models, optimality and smart heuristics	124
2.6	The scope behavior of further types of quantifiers	125
2.6.1	Coordinative quantifiers	125
2.6.2	Quantifiers with focus particles	128
2.6.3	Relative phrases	132

CHAPTER 3

Absolute scope

137

3.1	The puzzle of clause-boundedness	137
3.1.1	Absolute scope and (in)coherent infinitival constructions	137
3.1.2	Absolute scope and subordinate finite clauses	142
3.2	A model of absolute and relative scope determination	150
3.3	Scope (and syntax) of wh-phrases <i>in situ</i>	160
3.4	Absolute scope and the relation between syntactic and semantic structure	165
3.4.1	From clause-boundedness to phrase-boundedness	165
3.4.2	Absolute scope and quantifier raising	168
3.4.3	Correspondence constraints concerning absolute scope	170
3.4.4	Scope and quantifier storage	171
3.5	Inverse linking	173

CHAPTER 4

Indefinites and quantifiers 179

- 4.1 Indefinite quantifiers 180
- 4.2 Types of indefinites 182
 - 4.2.1 Non-specific indefinites 182
 - 4.2.2 Specific indefinites 187
 - 4.2.3 Some consequences concerning (non-)specific indefinites 193
 - 4.2.4 Generic indefinites 197
- 4.3 The scope of implicit quantifiers triggered by (in)definites 201
- 4.4 Indefinites in donkey sentences 204

CHAPTER 5

Interrogative quantifiers 215

- 5.1 The pair-list reading as a scope reading 215
- 5.2 Wh/Q-interaction in German, English and Polish 220
- 5.3 The semantics of the pair-list reading 224
- 5.4 Scope and semantics of *how many* phrases 230

CHAPTER 6

Alternative scope accounts 237

- 6.1 Configurational theories 237
- 6.2 Semantically and pragmatically based theories 250
- 6.3 Multi-factor theories 252

CHAPTER 7

Towards a theory of semantic structure 261

- 7.1 The form of semantic structure 261
 - 7.1.1 Semantic features and semantic structures 261
 - 7.1.2 The semantic characterization of lexical items and syntactic phrases 263
- 7.2 The interpretation of semantic structure 271
- 7.3 The construction of semantic structures from syntactic structures 276
 - 7.3.1 Semantic specifications and quantifier stores 276
 - 7.3.2 Implicit quantifiers in semantic structure 287

CHAPTER 8	
Concluding remarks	291
References	293
Index	311
