Preface	xi
Curriculum vita of Frederick J. Almgren, Jr.	xiii
1. Brian White, <i>The Mathematics of Frederick J. Almgren, Jr.</i> , to appear in the <i>Journal of Geometric Analysis</i> <b>9</b> (1999)	xv
List of students of F. J. Almgren, Jr.	xxxiii
List of publications of F. J. Almgren, Jr.	xxxiv
2. Sheldon X. Chang, <i>On Almgren's Regularity Results</i> , to appear in the <i>Journal of Geometric Analysis</i> <b>9</b> (1999).	xli
3. <i>The homotopy groups of the integral cycle groups</i> , <i>Topology</i> <b>1</b> (1962), 257–299.	1
4. <i>An isoperimetric inequality</i> , <i>Proceedings of the American Mathematical Society</i> <b>15</b> (1964), 284–284.	45
5. <i>Three theorems on manifolds with bounded mean curvature</i> , <i>Bulletin of the American Mathematical Society</i> <b>71</b> (1965), 755–756.	47
6. <i>Existence and regularity almost everywhere of solutions to elliptic variational problems among surfaces of varying topological type and singularity structure</i> , <i>Annals of Mathematics</i> <b>87</b> (1968), 321–391.	49
7. <i>Measure theoretic geometry and elliptic variational problems</i> , <i>Bulletin of the American Mathematical Society</i> <b>75</b> (1969), 285–304.	121
8. <i>The structure of limit varifolds associated with minimizing sequences of mappings</i> , <i>Symposia Mathematica</i> <b>XIV</b> (1974), 413–428.	141
9. <i>Existence and regularity almost everywhere of solutions to elliptic variational problems with constraints</i> , <i>Bulletin of the American Mathematical Society</i> <b>81</b> (1975), 151–154.	157
10. (with William K. Allard), <i>The structure of stationary one dimensional varifolds with positive density</i> , <i>Inventiones Mathematicae</i> <b>34</b> (1976), 83–97.	161

11. (with Jean E. Taylor), *The geometry of soap films and soap bubbles*, Scientific American, July 1976, 82–93. 177
12. (with William P. Thurston), *Examples of unknotted curves which bound only surfaces of high genus with their convex hulls*, Annals of Mathematics **105** (1977), 527–538. 197
13. (with Richard Schoen & Leon Simon), *Regularity and singularity estimates on hypersurfaces minimizing parametric elliptic variational integrals*, Acta Mathematica **139** (1977), pp. 217–220 and 256–265 (introduction plus Almgren’s contribution). 209
14. *Dirichlet’s problem for multiple valued functions and the regularity of mass minimizing integral currents*, Minimal Submanifolds and Geodesics, Proceedings of the Japan-U.S. Seminar on Minimal Submanifolds, including Geodesics, M. Obata, editor, Tokyo: Kaigai Publishing, Ltd., 1978, 1–6. 223
15. (with Robert N. Thurston), *Liquid crystals and geodesics*, Journal de Physique **42** (1981), 413–417. 229
16. **Q** *valued functions minimizing Dirichlet’s integral and the regularity of area minimizing rectifiable currents up to codimension two*, Bulletin of the American Mathematical Society **8**, no. 2 (1983), 327–328. 235
17. *Optimal isoperimetric inequalities*, Indiana University Mathematics Journal **35** no. 3 (1986), 451–547. 237
18. (with William Browder & Elliott H. Lieb), *Co-area, liquid crystals, and minimal surfaces*, Partial Differential Equations, S. S. Chern, editor, Lecture Notes in Mathematics **1306**, Springer-Verlag New York, 1988, 1–22. 335
19. (with Elliott H. Lieb), *Singularities of energy minimizing maps from the ball to the sphere: Examples, counterexamples, and bounds*, Annals of Mathematics **128** (1988), 483–530. 357
20. (with Elliot H. Lieb), *Symmetric rearrangement is sometimes continuous*, Journal of the American Mathematical Society **2** (1989), 683–773. 405
21. *Questions and answers about area minimizing surfaces and geometric measure theory*, Differential Geometry, Proceedings of Symposia in Pure Mathematics **LIV**, American Mathematical Society, 1992, 29–53. 497
22. (with Jean E. Taylor & Lihe Wang), *Curvature-driven flows: A variational approach*, SIAM Journal of Control and Optimization **31-2** (1993), 387–438. 523

23. <i>Questions and answers about geometric evolution processes and crystal growth</i> , The Gelfand Mathematical Seminars, 1993–1995, J. Lepowsky & M. M. Smirnov, editors, Birkhäuser Boston, 1996, 1–9.	575
