Volume I

Theory of Algebras

Introduction by O. Goldman

3

- | | |
|---|-----|
| [3] Über Zusammenhänge zwischen arithmetischen und invariantentheoretischen Eigenschaften von Gruppen linearer Substitutionen | 5 |
| [4] Über minimale Zerfällungskörper irreduzibler Darstellungen (with E. Noether) | 12 |
| [5] Untersuchungen über die arithmetischen Eigenschaften von Gruppen linearer Substitutionen I | 20 |
| [7] Über Systeme hyperkomplexer Zahlen | 40 |
| [11] Zum Irreduzibilitätsbegriff in der Theorie der Gruppen linearer homogener Substitutionen (with I. Schur) | 69 |
| [12] Untersuchungen über die arithmetischen Eigenschaften von Gruppen linearer Substitutionen II | 88 |
| [13] Über die algebraische Struktur von Schiefkörpern | 103 |
| [14] Beweis eines Hauptsatzes in der Theorie der Algebren (with H. Hasse and E. Noether) | 115 |

[15] Über die Konstruktion der Schiefkörper, die von endlichem Rang in bezug auf ein gegebenes Zentrum sind	121
[16] Über den Index und den Exponenten von Divisionalgebren	142
[22] Algebra der hyperkomplexen Zahlensysteme (Algebren)	153
[28] On the regular representations of algebras (with C. Nesbitt)	190
[30] On normal division algebras of index 5	195
[31] On modular and p -adic representations of algebras	199
[36] On sets of matrices with coefficients in a division ring	206
[41] On the nilpotency of the radical of a ring	253
[44] On hypercomplex arithmetic and a theorem of Speiser	260
[50] On splitting fields of simple algebras	273
[56] Representations of groups and rings	285
[57] On a theorem of H. Cartan	306
[69] Some remarks on associative rings and algebras	308

Finite Groups

Introduction by Paul Fong and Warren J. Wong
319

[18] Über die Darstellung von Gruppen in Galoisschen Feldern	323
[27] On the modular representations of groups of finite order I (with C. Nesbitt)	336
[32] On the representation of groups of finite order	355
[33] On the Cartan invariants of groups of finite order	361
[34] On the modular characters of groups (with C. Nesbitt)	370

[37] On the connection between the ordinary and the modular characters of groups of finite order	405
[38] Investigations on group characters	415
[39] On groups whose order contains a prime number to the first power I	438
[40] On groups whose order contains a prime number to the first power II	458
[42] On permutation groups of prime degree and related classes of groups	478
[43] On the arithmetic in a group ring	501
[46] On simple groups of finite order (with H. F. Tuan)	507
[47] On the representation of a group of order g in the field of the g -th roots of unity	518
[48] On blocks of characters of groups of finite order, I	529
[49] On blocks of characters of groups of finite order, II	534
[51] On Artin's L -series with general group characters	539
[53] Applications of induced characters	552
[54] On a conjecture by Nakayama	560
[60] On the algebraic structure of group rings	569
[61] On the representations of groups of finite order	584
[62] A characterization of the characters of groups of finite order	588
[63] On the characters of finite groups (with J. Tate)	609

Volume II

Finite Groups (Continued)

[64] On groups of even order (with K. A. Fowler)	3
[65] Zur Darstellungstheorie der Gruppen endlicher Ordnung	22
[67] Number theoretical investigations on groups of finite order	61
[68] On the structure of groups of finite order	69
[70] A characterization of the one-dimensional unimodular projective groups over finite fields (with M. Suzuki and G. E. Wall)	78
[71] On a problem of E. Artin (with W. F. Reynolds)	106
[72] On the number of irreducible characters of finite groups in a given block (with W. Feit)	114
[73] Zur Darstellungstheorie der Gruppen endlicher Ordnung II	119
[74] On finite groups of even order whose 2-Sylow group is a quaternion group (with M. Suzuki)	141
[76] On blocks of representations of finite groups	144
[77] Investigation on groups of even order, I	147
[78] On finite groups with an abelian Sylow group (with H. S. Leonard)	150
[79] On groups of even order with an abelian 2-Sylow subgroup	165
[80] On some conjectures concerning finite simple groups	171
[81] On finite groups and their characters	177
[82] Representations of finite groups	183

[83] On quotient groups of finite groups	226
[84] A note on theorems of Burnside and Blichfeldt	239
[85] Some applications of the theory of blocks of characters of finite groups. I	243
[86] Some applications of the theory of blocks of characters of finite groups. II	259
[89] On finite Desarguesian planes. I	287
[90] On finite Desarguesian planes. II	294
[91] Investigation on groups of even order, II	322
[92] Some applications of the theory of blocks of characters of finite groups, III	328
[93] A characterization of the Mathieu group M_{12} (with P. Fong)	359
[94] An analogue of Jordan's theorem in characteristic p (with W. Feit)	389
[95] Some results on finite groups whose order contains a prime to the first power	402
[97] On simple groups of order $5 \cdot 3^a \cdot 2^b$	421
[98] Über endliche lineare Gruppen von Primzahlgrad	471
[99] On a theorem of Burnside	495
[100] On blocks and sections in finite groups, I	499
[101] On pseudo groups	521
[102] On blocks and sections in finite groups, II	531
[104] On a theorem of Frobenius	562
[105] Defect groups in the theory of representations of finite groups	566

Volume III

Finite Groups (Continued)

[106] On the order of finite projective groups in a given dimension	3
[109] On the first main theorem on blocks of characters of finite groups	7
[111] On finite Desarguesian planes. III	12
[112] Some applications of the theory of blocks of characters of finite groups IV	20
[113] Types of blocks of representations of finite groups	53
[114] Some properties of finite groups with wreathed Sylow 2-subgroup (with W. J. Wong)	58
[115] Character theory of finite groups with wreathed Sylow 2-subgroups	69
[116] Blocks of characters	115
[118] Finite simple groups of 2-rank two (with J. L. Alperin and D. Gorenstein)	120
[120] On the structure of blocks of characters of finite groups	144
[121] Some applications of the theory of blocks of characters of finite groups. V	172
[122] On 2-blocks with dihedral defect groups	200
[123] On the centralizers of p -elements in finite groups (with P. Fong)	227
[125] On finite groups with cyclic Sylow subgroups, I	233
[126] Notes on representations of finite groups, I	262

[127] Blocks of characters and structure of finite groups	267
[128] On finite projective groups	285
[129] On finite groups with cyclic Sylow subgroups, II	305

Lie Groups

[1] Über die Darstellung der Drehungsgruppe durch Gruppen linearer Substitutionen	335
[8] Die stetigen Darstellungen der komplexen orthogonalen Gruppe	404
[19] Spinors in n dimensions (with H. Weyl)	418
[21] Sur les invariants intégraux des variétés représentatives des groupes de Lie simples clos	443
[25] On algebras which are connected with the semisimple continuous groups	446
[26] Eine Bedingung für vollständige Reduzibilität von Darstellungen gewöhnlicher und infinitesimaler Gruppen	462
[29] Sur la multiplication des caractéristiques des groupes continus et semi-simples	472
[88] On the relation between the orthogonal group and the unimodular group	475

Number Theory

[52] On the zeta-functions of algebraic number fields	481
[58] On the zeta-functions of algebraic number fields II	489
[59] Beziehungen zwischen Klassenzahlen von Teilkörpern eines galoisschen Körpers	497

[66] A note on the class-numbers of algebraic number fields (with N. C. Ankeny and S. Chowla)	514
[87] On certain classes of positive definite quadratic forms	525
[119] A note on zeta-functions of algebraic number fields	533
[124] On the resolvent problem	536

Polynomials and Equations; Geometry

[2] Über die Irreduzibilität einiger spezieller Klassen von Polynomen (with A. Brauer and H. Hopf)	549
[6] Über einen Satz für unitäre Matrizen	563
[9] Über einen Satz für unitäre Matrizen (with A. Loewy)	564
[17] Über die Kleinsche Theorie der algebraischen Gleichungen	570
[20] Über Irreduzibilitätskriterien von I. Schur und G. Pólya (with A. Brauer)	598
[23] Symmetrische Funktionen. Invarianten von linearen Gruppen endlicher Ordnung	622
[24] A characterization of null systems in projective space	645
[35] A generalization of theorems of Schönhardt and Mehmke on polytopes (with H. S. M. Coxeter)	653
[45] A note on systems of homogeneous algebraic equations	659
[55] A note on Hilbert's Nullstellensatz	666

Biography

[96] Emil Artin	671
[117] On the work of John Thompson	688
