

# TABLE OF CONTENTS

129. Algebren und ihre Zahlentheorie, [259] . . . . .	7
130. The structure of certain linear groups with quadratic invariants, [23] . . . . .	321
131. The group of linear homogeneous substitutions on $mq$ variables which is defined by the invariant . . . , [31] . . . . .	351
132. Concerning the four known simple linear groups of order 25920, with an introduction to the hyper-abelian linear groups, [32] . . . . .	361
133. The abstract group isomorphic with the symmetric group on $k$ letters, [33] . . . . .	401
134. An abstract simple group of order 25920, [48] . . . . .	405
135. Linear substitutions commutative with a given substitution, [49] . . . . .	413
136. Concerning the Abelian and related linear groups, [59] . . . . .	419
137. Generational relations for the abstract group simply isomorphic with the linear fractional group in the $GF[2^n]$ , [95] . . . . .	433
138. Linear groups in an infinite field, [60] . . . . .	445
139. A quadratic Cremona transformation defined by a conic, [10] .	467
140. Two systems of subgroups of the quaternary Abelian group in a general Galois field, [99] . . . . .	472
141. On the subgroups of order a power of $p$ in the linear homogeneous and fractional groups in the $GF[p^n]$ , [100] . . . . .	479
142. On the class of the substitutions of various linear groups, [113]	492
143. The group of a tactical configuration, [112] . . . . .	499
144. A general theorem on algebraic numbers, [114] . . . . .	502

145. Proof of the existence of the Galois field of order $p^r$ for every integer $r$ and prime number $p$ , [43] .....	507
146. The symmetric group on eight letters and the senary first hypoabelian group, [136] .....	508
147. On quadratic forms in a general field, [138] .....	512
148. On triple algebras and ternary cubic forms, [142] .....	520
149. Criteria for the irreducibility of a reciprocal equation, [144] ...	530
150. Modular theory of group characters, [137] .....	535
151. On higher congruences and modular invariants, [143] .....	547
152. On the factorization of integral functions with $p$ -adic coefficients, [167] .....	553
153. On the representation of numbers by modular forms, [157] ...	558
154. On the negative discriminants for which there is a single class of positive primitive binary quadratic forms, [168] .....	568
155. Invariants, seminvariants, and covariants of the ternary and quaternary quadratic form modulo 2, [198] .....	572
156. On the relation between linear algebras and continuous groups, [199] .....	578
157. Mathematics in war perspective. [Presidential address delivered before the American Mathematical Society, December 27, 1918.], [211] .....	587
158. Fallacies and misconceptions in Diophantine analysis, [217] ...	611
159. A new method in Diophantine analysis, [218] .....	619
INDEX .....	633
