Contents – Volume 3

Ideale in vollständigen Mengenkörpern, II 1
On closed elements in closure algebras (with J. C. C. McKinsey) ... 19
A remark on functionally free algebras 63
Direct decompositions of finite algebraic systems (with B. Jónsson) 69
Some theorems about the sentential calculi of Lewis and Heyting (with J. C. C. McKinsey) 145
A problem concerning the notion of definability 163
Axiomatic and algebraic aspects of two theorems on sums of cardinals 171
Measures in Boolean algebras (with A. Horn) 199
Cancellation laws in the arithmetic of cardinals 233
Distributive and modular laws in the arithmetic of relation algebras (with L. H. Chin) 251
A decision method for elementary algebra and geometry (prepared for publication with the assistance of J. C. C. McKinsey) 297
Boolean algebras with operators, Part I (with B. Jónsson) 369
Boolean algebras with operators, Part II (with B. Jónsson) 421
Some notions and methods on the borderline of algebra and metamathematics 459
Mutual interpretability of some essentially undecidable theories (with W. Szmielew) 477
On algebras whose factor algebras are Boolean (with J. M. G. Fell) 481
Theorems on the existence of successors of cardinals, and the axiom of choice 505
Contributions to the theory of models, I 515
Contributions to the theory of models, II 527
Contributions to the theory of models, III 537
A lattice-theoretical fixpoint theorem and its applications 549
The fundamental ideas of pansomatism (English translation of the article «Zasadnicze myśli pansomatyzmu» by T. Kotarbiński; translated by A. Tarski and D. Rynin) 577
Equationally complete rings and relation algebras 593
Equilaterality as the only primitive notion of Euclidean geometry (with E. W. Beth) 603
A general theorem concerning primitive notions of Euclidean geometry 611
Higher degrees of distributivity and completeness in Boolean algebras (with E. C. Smith, Jr.) 621
Arithmetical extensions of relational systems (with R. L. Vaught) . 651
Remarks on direct products of commutative semigroups 675

Contents – Volume 1

Przyczynek do aksjomatyki zbioru dobrze uporządkowanego (A contribution to the axiomatic of well-ordered sets) 1
Sur le terme primitif de la logistique 13
Sur les truth-functions au sens de MM. Russell et Whitehead 21
Sur quelques théorèmes qui équivalent à l'axiome du choix 39
O równoważności wielokątów (On the equivalence of polygons) ... 49
Sur les ensembles finis 65
Sur la décomposition des ensembles de points en parties respectivement congruentes (with S. Banach) 119
Quelques théorèmes sur les alephs 155
Communication sur les recherches de la Théorie des Ensembles (with A. Lindenbaum) 171
Sur la décomposition des ensembles en sous-ensembles presque disjoints 205
Les fondements de la géometrie des corps 225
Geschichtliche Entwicklung und gegenwärtiger Zustand der Gleichmächtigkeitstheorie und der Kardinalzahlarithmetik 233
Les fonctions additives dans les classes abstraites et leur application au problème de la mesure 243
Zjazd matematyków (The meeting of mathematicians) 249
Sur la décomposition des ensembles en sous-ensembles presque disjoints (Supplément à la note sous le même titre) 253
Na marginesie «Rozporządzenia Prezydenta Rzeczypospolitej o ubezpieczeniu pracowników umysłowych z dnia 24 listopada 1927r.» (On the margin of «Decree of the President of the Republic concerning the insurance of non-manual workers of November 24, 1927») 267
Une contribution à la théorie de la mesure 275
Sur une propriété caractéristique des nombres inaccessibles (with W. Sierpiński) 287
Über Äquivalenz der Mengen in bezug auf eine beliebige Klasse von Abbildungen 299
Über einige fundamentale Begriffe der Metamathematik 311
Untersuchungen über den Aussagenkalkül (with J. Łukasiewicz) ... 321
Fundamentale Begriffe der Methodologie der deduktiven Wissenschaften, I 345
Sur les classes d'ensembles closes par rapport à certaines opérations élémentaires 391
Sur les ensembles définissables de nombres réels, I 517
Les opérations logiques et les ensembles projectifs (with C. Kuratowski) 549
O stopniu równoważności wielokątów (On the degree of equivalence of polygons) 561
The degree of equivalence of polygons (English translation by Isaak Wirszup of the preceding article) 571

Teorja długości okręgu w szkole średniej (The theory of the measure of the circumference of a circle for high school teaching) 581
Uwagi o stopniu równoważności wielokątów (Remarks on the degree of equivalence of polygons) 595
Further remarks about the degree of equivalence of polygons (English translation by Isaak Wirszup of the preceding article) 603
Der Wahrheitsbegriff in den Sprachen der deduktiven Disziplinen 613
Einige Betrachtungen über die Begriffe der ω-Widerspruchsfreiheit und der ω-Vollständigkeit 619
Einige methodologische Untersuchungen über die Definierbarkeit der Begriffe 637

Contents – Volume 2

Zur Grundlegung der Boole'schen Algebra, I 1
Grundzüge des Systemenkalküls, Erster Teil 25
Der Wahrheitsbegriff in den formalisierten Sprachen 51
Wahrscheinlichkeitslehre und mehrwertige Logik 199
Über die Beschränktheit der Ausdrucksmittel deduktiver Theorien (with A. Lindenbaum) 203
Über die Erweiterungen der unvollständigen Systeme des Aussagenkalküls 213
Grundzüge des Systemenkalküls, Zweiter Teil 223
Sur les classes d'ensembles closes par rapport aux opérations de Hausdorff 245
Grundlegung der wissenschaftlichen Semantik 259
Über den Begriff der logischen Folgerung 269
Ideale in den Mengenkörpern 283
Über additive und multiplikative Mengenkörper und Mengenfunktionen 289
Sur la méthode déductive 323
Appendix E to J. H. Woodger's «The Axiomatic Method in Biology» 335
Einige Bemerkungen zur Axiomatik der Boole'schen Algebra 351
Über unerreichbare Kardinalzahlen 357
Drei Überdeckungssätze der allgemeinen Mengenlehre 381
Ein Überdeckungssatz für endliche Mengen 407
Eine äquivalente Formulierung des Auswahlaxioms 417
Über das absolute Maß linearer Punktmengen 425
Ein Beitrag zur Axiomatik der Abelschen Gruppen 445
Algebraische Fassung des Maßproblems 451
Der Aussagenkalkül und die Topologie 473
Ideale in vollständigen Mengenkörpern, I 507
Boolesche Ringe mit geordneter Basis (with A. Mostowski) 529
On well-ordered subsets of any set 549
On undecidable statements in enlarged systems of logic and the concept of truth 559
On the calculus of relations 569
On families of mutually exclusive sets (with P. Erdös) 589
The algebra of topology (with J. C. C. McKinsey) 607
The semantic conception of truth and the foundations of semantics 661

Contents – Volume 4

The sentential calculus with infinitely long expressions (with D. Scott) 1
Remarks on predicate logic with infinitely long expressions 9
What is elementary geometry? 17
On two properties of free algebras (with B. Jónsson) 33
Cylindric algebras (with L. Henkin) 43
On some problems involving inaccessible cardinals (with P. Erdös) 77
Some problems and results relevant to the foundations of set theory 113
From accessible to inaccessible cardinals. Results holding for all accessible cardinal numbers and the problem of their extension to inaccessible ones (with H. J. Keisler) 127
Refinement properties for relational structures (with C. C. Chang and B. Jónsson) 215
A simplified formalization of predicate logic with identity 251
Metamathematical properties of some affine geometries (with L. W. Szczerba) 273
The completeness of elementary algebra and geometry 289
Equational logic and equational theories of algebras 347
An extended arithmetic of ordinal numbers (with J. Doner) 363
Truth and proof 399
An interpolation theorem for irredundant bases of closure structures 425
The elementary theory of well-ordering – A metamathematical study (with J. Doner and A. Mostowski) 435
Metamathematical discussion of some affine geometries (with L. W. Szczerba) 491

Abstracts

(1924) Sur les principes de l'arithmétique des nombres ordinaux (transfinis) 533
Une remarque concernant les principes d'arithmétique théorique 535
(1926) Remarque concernant l'arithmétique des nombres cardinaux 537
Sur l'indépendance des notions primitives dans les systèmes mathématiques (with A. Lindenbaum) 538
(1927) Sur quelques propriétés caractéristiques des images d'ensembles 541
Quelques théorèmes généraux sur les images d'ensembles 544
Un théorème sur les fonctions d'ensembles (with B. Knaster) 546
(1928) Remarque de M. Tarski 548

	A contribution to the discussion of an article by T. Czeżowski	549
	Sur les groupes d'Abel ordonnés	550
	Remarques sur les notions fondamentales de la méthodologie des mathématiques	552
(1930)	O pojęciu prawdy w odniesieniu do sformalizowanych nauk dedukcyjnych (On the concept of truth in reference to formalized deductive sciences)	555
	Über definierbare Zahlenmengen	560
(1931)	Neue Resultate und unentschiedene Probleme der Kardinalzahlarithmetik	562
	Untersuchungen über den Aussagenkalkül	564
(1932)	Sur les propriétés géométriques de la mesure de Banach	567
(1934)	Editorial remark after an article by Th. Skolem	568
(1938)	Über das Repräsentationsproblem	569
(1939)	New investigations on the completeness of deductive theories	571
(1945)	On direct products of algebras (with B. Jónsson)	572
	A generalization of Wedderburn's theorem (with B. Jónsson)	573
(1948)	Measures in Boolean algebras (with A. Horn)	574
	Boolean algebras with operators (with B. Jónsson)	575
	Representation problems for relation algebras (with B. Jónsson)	576
	Remarks on projective algebras (with L. H. Chin)	577
(1949)	Distributive and modular laws in relation algebras (with L. H. Chin)	578
	Arithmetical classes and types of mathematical systems	579
	Metamathematical aspects of arithmetical classes and types	580
	Arithmetical classes and types of Boolean algebras	581
	Arithmetical classes and types of algebraically closed and real-closed fields	582
	Arithmetical classes and types of well ordered systems (with A. Mostowski)	583
	On essential undecidability	584
	Undecidability in the arithmetic of integers and in the theory of rings (with A. Mostowski)	586
	Undecidability of group theory	588
	Undecidability of the theories of lattices and projective geometries	590
	A fixpoint theorem for lattices and its applications	592
	Theorems common to all complete and axiomatizable theories (with W. Szmielew)	593
(1950)	On algebras whose factor algebras are Boolean (with J. M. G. Fell)	594
(1951)	On homomorphic images of complete Boolean algebras	595
	On a statement related to the principle of choice	596
	Remarks on the formalization of the predicate calculus	597
(1952)	Some general properties of cylindric algebras (with F. B. Thompson)	598

A representation theorem for cylindric algebras 599
On representable relation algebras 600
(1953) Factor relations over algebras (with B. Jónsson) 601
Decomposition functions on algebras (with B. Jónsson) .. 602
Some metalogical results concerning the calculus of relations 603
A formalization of set theory without variables 605
An undecidable system of sentential calculus 607
Two general theorems on undefinability and undecidability 608
Universal arithmetical classes of mathematical systems .. 609
(1954) A characterization of equational classes of algebras with finitary operations (with C. C. Chang and H. Rubin) 610
On equational classes of algebras with finitary operations 611
The axiom of choice and the existence of a successor for every cardinal 612
On equationally complete rings and relation algebras 613
A general theorem concerning the reduction of primitive notions 614
On the reduction of the number of generators in relation rings 616
Prime ideal theorems for Boolean algebras and the axiom of choice 617
Prime ideal theorems for set algebras and ordering principles 618
Prime ideal theorems for set algebras and the axiom of choice 619
Some remarks and problems concerning isomorphism of algebras 620
(1955) General principles of induction and recursion in axiomatic set theory 621
The notion of rank in axiomatic set theory and some of its applications 622
Metamathematical proofs of some representation theorems for Boolean algebras 623
(1956) New results concerning isomorphism of Boolean algebras and commutative semigroups (with W. Hanf) 624
Two general theorems concerning free algebras (with B. Jónsson) 625
Notions of proper models for set theories 626
(1957) The existence of independent axiom systems for Peano's arithmetic 627

Summaries of Talks Presented at the Summer Institute for Symbolic Logic, Cornell University, 1957

Elementary (arithmetical) extensions (with R. L. Vaught). 629
The sentential calculus with infinitely long expressions (with D. S. Scott) 634
Remarks on predicate logic with infinitely long expressions 641

Introductory remarks on the theory of models 645
Independent recursive axiomatizability
(with R. Montague) 646
Cylindrical algebras (with L. Henkin) 647

(1958) Models of universal sentences in predicate logic
with infinitely long formulas 657
Some model-theoretical results concerning weak
second–order logic 658
Reduced products (with T. E. Frayne and D. S. Scott) 659
Reduced products and the compactness theorem
(with A. C. Morel and D. S. Scott) 660
Extension principles for algebraically closed fields (with
D. S. Scott) 661
An extension of the Löwenheim-Skolem theorem to a
second-order logic 662
(1961) Representable Boolean algebras and infinitary logics 663
A model-theoretical result concerning infinitary logics ... 664
(1962) Solution of the decision problem for the elementary
theory of commutative semigroups 665
Undecidability of the elementary theory
of commutative semigroups 666
(1963) The elementary undecidability of pure transcendental
extensions of real closed fields 667
(1964) On the ordering of certain sets of cardinals 668
Metamathematical properties of some affine geometries . 669
The comparability of cardinals and the axiom of choice .. 672
(1965) On the existence of large sets of Dedekind cardinals 673
(1966) Some decision problems for locally free commutative
algebras 674
On direct products of Boolean algebras with additional
operations 675
(1970) The minimum cardinality of equational bases for
varieties of groups and rings (with T. C. Green) 676
The least cardinality of equational bases for varieties of
groups and rings (with T. C. Green) 677
(1976) A sufficient condition for the representability of relation
algebras (with R. Maddux) 679
(1977) Relation algebras with transitive closure (with K. C. Ng) . 680
Peano arithmetic and the Zermelo-like theory of sets with
finite ranks (with S. Givant) 681

Problems, Reviews, Contributions to Discussions

Problems in: Fundamenta Mathematicae vol's 5 and 7, 1924/25 685
Contribution to a discussion in: Przegląd Filozoficzny vol. 28, 1925 686
Contribution to a discussion in: Przegląd Filozoficzny vol. 31, 1928 687
Problems in: Parametr vol. 1, 1930 688
Problems in: Parametr vol. 2, 1931/32 691
Problems in: Młody Matematyk vol. 1 (appendix to Parametr vol. 2) 692

Remarks at the Eighth International Congress of Philosophy, Prague, 1934 694
Remarks at the Third Annual Polish Philosophical Meeting, Cracow, 1936 698
Review of the paper «O funkcjach charakterystycznych w logikach wielowartościowych» by Z. Schmierer. 1937 702
Review of the paper «Aksjomatyzacja pewnych wielowartościowych systemów teorji dedukcji» by B. Sobociński. 1937 703
Review of the paper «O niezależności definicji skończoności w systemie logiki» by A. Mostowski. 1938 704
Remarks at the *Entretiens d'été,* Amersfoort, 1938 707
The problem of weakly denumerable sets. 1953 708
Review of the paper «A proof of the Skolem-Löwenheim theorem» by H. Rasiowa and R. Sikorski (with S. Feferman). 1953 709
Résumé of an address, and remarks at the International Logic Colloquium, Brussels, 1953 711
Contributions to discussions at the Hamburg Congress on Science and Freedom, 1953 717
Remarks at the International Colloquium of the *Centre National de la Recherche Scientifique,* Paris, 1958 723
Problems in: Kourovka Notebook, Novosibirsk, 1965 727

Bibliography of Alfred Tarski
by S. Givant 729
