Commentators
xxiii

Part I
Mathematics

[1] Remark on the generalised Bernstein's theorem 3

[2] Concerning functions of sets 6

[3] Zur Masstheorie in der allgemeinen Mengenlehre 9

[4] (with K. Borsuk) On symmetric products of topological spaces 20

[5] (with J. Schreier) Sur une propriété de la mesure de M. Lebesgue 28

[6] (with K. Kuratowski) Quelques propriétés topologiques du produit combinatoire 32

[7] (with S. Mazur) Sur les transformations isométriques d'espaces vectoriels, normés 37

[8] Zum Massbegriffe in Produkträumen 40

[9] (with J. Schreier) Sur le groupe des permutations de la suite des nombres naturels 41

[10] (with J. Schreier) Sur les transformations continues des sphères euclidiennes 43

[11] (with K. Kuratowski) Sur un coefficient lié aux transformations continues d'ensembles 45

[12] (with J. Schreier) Über die Permutationsgruppe der natürlichen Zahlenfolge 55

[13] (with K. Borsuk) Über gewisse Invarianten der ϵ-Abbildungen 63

[14] Über gewisse Zerlegungen von Mengen 71

[15] (with J. Schreier) Eine Bemerkung über die Gruppe der topologischen Abbildungen der Kreislinie auf sich selbst 74

[16] (with Z. Łomnicki) Sur la théorie de la mesure dans les espaces combinatoires et son application au calcul des probabilités. I. Variables indépendantes 79

[17] (with J. Schreier) Über topologische Abbildungen der euklidischen Sphären 121

[18] (with H. Auerbach) Sur le nombre de générateurs d'un groupe semi-simple 138

[19] (with J. Schreier) Sur le nombre des générateurs d'un groupe topologique compact et connexe 141

[20] (with H. Auerbach and S. Mazur) Sur une propriété caractéristique de l'ellipsoïde 144

[21] (with J. Schreier) Über die Automorphismen der Permutationsgruppe der natürlichen Zahlenfolge 148

[22] (with J. C. Oxtoby) On the equivalence of any set of first category to a set of measure zero 151

[23] (with J. C. Oxtoby) On the existence of a measure invariant under a transformation 157

[24] (with J. C. Oxtoby) Measure-preserving homeomorphisms and metrical transitivity 164

[25] What is measure? 211

[27] (with D. H. Hyers) On approximate isometries 217

[28] (with C. J. Everett) On ordered groups 222

[30] (with C. J. Everett) Projective algebra I 231

[33] (with D. H. Hyers) Approximate isometries of the space of continuous functions 243

[35] (with C. J. Everett) Multiplicative systems, in several variables. Part I 248

[46] (with D. H. Hyers) Approximately convex functions 251

[51] (with D. H. Hyers) On the stability of differential expressions 259

[86] (with C. J. Everett) On some possibilities of generalizing the Lorentz group in the special relativity theory 265

[91] (with G. H. Meisters) On visual hulls of sets 288

[93] (with W. A. Beyer) Note on the visual hull of a set 291

[95] (with P. Erdös) On equations with sets as unknowns 297

[97] (with J. Mycielski) On the pairing process and the notion of genealogical distance 304

[103] (with P. Erdös) Some probabilistic remarks on Fermat's last theorem 312

Part II
Computations, Games, and Numbers

[38] (with N. C. Metropolis) The Monte Carlo method 319

[48] Random processes and transformations 326

[50] (with N. C. Metropolis) A property of randomness of an arithmetical function 338

[53] (with V. L. Gardiner, R. Lazarus, and N. C. Metropolis) On certain sequences of integers defined by sieves 340

[55] (with J. M. Kister, P. R. Stein, W. Walden, and M. B. Wells) Experiments in chess 346

[57] Infinite models in physics 350

[66] (with J. R. Pasta) Heuristic numerical work in some problems of hydrodynamics 359

[71] On some statistical properties of dynamical systems 371

[77] Some properties of certain non-linear transformations 377

[78] Combinatorial analysis in infinite sets and some physical theories 388

[81] (with P. R. Stein) Non-linear transformation studies on electronic computers 401

[83] (with M. L. Stein and M. B. Wells) A visual display of some properties of the distribution of primes 485

[85] (with E. Fermi and J. R. Pasta) Studies of non linear problems 490

[89] (with M. L. Stein) An observation on the distribution of primes 502

Part III
Mathematical Problems

[69] A Collection of Mathematical Problems 505
