Biographical Note.....	v
Hidehiko Yamabe, (1923–1960).....	vii
On an Arcwise Connected Subgroup of a Lie Group, <i>Hidehiko Yamabe</i>	1
On an Extension of the Helly's Theorem, <i>Hidehiko Yamabe</i>	3
On the Continuous Function Defined on a Sphere, <i>Hidehiko Yamabe and Zuiman Yujobo</i>	7
On Some Properties of Locally Compact Groups with No Small Subgroup, <i>Morikuni Goto and Hidehiko Yamabe</i>	11
On Continuous Isomorphisms of Topological Groups, <i>Morikuni Goto and Hidehiko Yamabe</i>	17
A Condition for an Abelian Group to be a Free Abelian Group with a Finite Basis, <i>Hidehiko Yamabe</i>	21
On Some Properties of Locally Compact Group with No Small Subgroup, <i>Morikuni Goto and Hidehiko Yamabe</i>	25
On a Locally Compact Group with a Neighbourhood Invariant under the Inner-automorphisms, <i>Hidehiko Yamabe</i>	31
Note on Locally Compact Groups, <i>Hidehiko Yamabe</i>	33
On the Conjecture of Iwasawa and Gleason, <i>Hidehiko Yamabe</i>	39
A Generalization of a Theorem of Gleason, <i>Hidehiko Yamabe</i>	47

A Proof of a Theorem on Jacobians, <i>Hidehiko Yamabe</i>	63
Kernel Functions of Diffusion Equations (I), <i>Hidehiko Yamabe</i>	65
A Unique Continuation Theorem for Solutions of a Parabolic Differential Equation, <i>Seizo Ito and Hidehiko Yamabe</i>	79
A Unique Continuation Theorem of a Diffusion Equation, <i>Hidehiko Yamabe</i>	87
Kernel Functions of Diffusion Equations II, <i>Hidehiko Yamabe</i> ..	93
On a Deformation of Riemannian Structures on Compact Manifolds, <i>Hidehiko Yamabe</i>	99
Global Stability Criteria for Differential Systems, <i>Lawrence Markus and Hidehiko Yamabe</i>	117
A Computational Approach to the Four-Color Problem, <i>Hidehiko Yamabe and David Pope</i>	131
On a Problem of Chevalley, <i>Hidehiko Yamabe</i>	135
