

# Table of Contents

Preface		vii
Ambiguity Functions and Group Representations	L. Auslander and R. Tolimieri	1
Kirillov Orbits and Direct Integral Decompositions on Certain Quotient Spaces	Lawrence Corwin	11
Some Homotopy and Shape Calculations for $C^*$ -Algebras	Edward G. Effors and Jerome Kaminker	69
Small Unitary Representations of Classical Groups	Roger Howe	121
Dual Vector Spaces	Irving Kaplansky	151
Exponential Decay of Correlation Coefficients for Geodesic Flows	Calvin C. Moore	163
Lattices in $U(n,1)$	G.D. Mostow	183
Induced Bundles and Nonlinear Wave equations	Irving E. Segal	199
Compact Abelian Automorphism Groups of Injective Semi-Finite Factors	Masamichi Takesaki	225
Ergodic Theory and the Automorphism Groups of a $G$ -structure	Robert J. Zimmer	247
