**Festschrift in honor of I.I. Piatetski-Shapiro**  
**Part 2: Papers in Analysis, Number Theory**  
**and Automorphic  $\mathcal{L}$ -functions**

|  |     |
|--|-----|
| PREFACE .....  | iii |
| PAPERS IN ANALYSIS, NUMBER THEORY<br>AND AUTOMORPHIC $L$ -FUNCTIONS                    |     |
| The Riesz-Raikov Theorem for Algebraic Numbers .....                                   | 1   |
| J. Bourgain  |     |
| The Exterior Square Automorphic $L$ -functions on $GL(n)$ .....                        | 47  |
| Daniel Bump and Solomon Friedberg  |     |
| A Problem on Certain $p$ -adic Zeta-functions .....                                    | 67  |
| Jun-ichi Igusa   |     |
| Poles of Eisenstein Series and $L$ -functions .....                                    | 81  |
| Stephen S. Kudla and Stephen Rallis  |     |
| Rank-one Residues of Eisenstein Series .....   | 111 |
| Robert P. Langlands  |     |
| Orbits of Group Actions and Values of Quadratic<br>Forms at Integral Points .....      | 127 |
| G. A. Margulis   |     |
| Spectrum of a Position of a Convex Body and<br>Linear Duality Relations .....          | 151 |
| V. Milman  |     |
| On Ruelle's Zeta-function .....  | 163 |
| S.J. Patterson   |     |
| The Converse Theorem for $GL(n)$ .....   | 185 |
| Ilya Piatetski-Shapiro   |     |
| Factorization of Operator Valued Analytic Functions<br>and Complex Interpolation ..... | 197 |
| Gilles Pisier  |     |

|  |     |
|--|-----|
| Multiplicities of Galois Representations in<br>Jacobians of Shimura Curves<br>Kenneth A. Ribet | 221 |
| On Cusp Forms II<br>P. Sarnak  | 237 |
| Remarks on the Distribution of Poles of<br>Eisenstein Series<br>Atle Selberg                   | 251 |
| On Multiplicity of Local Factors<br>Freydoon Shahidi   | 279 |
| Automorphic Forms in $\mathrm{GSp}(4)$<br>David Soudry   | 291 |
| Kuznetsov Formulas for Products of Groups<br>of $R$ -rank One<br>N.R. Wallach and R. Miatello  | 305 |
| Hecke Operators and Periods of Modular Forms<br>Don Zagier                                     | 321 |

|                                      |     |

**Part 1: Papers in Representation Theory**  
**(contained in Vol. 2 of this series)**

|  |     |
|--|-----|
| PREFACE .....  | iii |
| BIBLIOGRAPHY OF I. I. PIATETSKI-SHAPIRO .....  | xi  |
| <br>PERSONAL REMINISCENCES   |     |
| I.I. Piatetski-Shapiro, My Advisor and Friend .....  | 1   |
| L.N. Vaserstein  |     |
| Siegel Domains etc. ....   | 5   |
| S. Gindikin  |     |
| <br>PAPERS IN REPRESENTATION THEORY  |     |
| Exceptional Representations and Shimura's .....  | 19  |
| Integral for the Local Unitary Group $U(3)$<br>Stephen S. Gelbart and Jonathan D. Rogawski |     |
| Quelques Remarques sur les Théorèmes Réciproques .....                                     | 77  |
| Guy Henniart   |     |
| Another Look at the Local $\theta$ -correspondence .....                                   | 93  |
| for an Unramified Dual Pair<br>Roger Howe  |     |
| Rankin-Selberg Convolutions: Archimedean Theory .....                                      | 125 |
| Hervé Jacquet and Joseph Shalika   |     |
| The Smallest Representation of Simply Laced Groups .....                                   | 209 |
| D. Kazhdan and G. Savin  |     |
| On Formal Dimensions for Reductive $p$ -adic Groups .....                                  | 225 |
| Marie-France Vignéras  |     |
| Démonstration d'une Conjecture de Dualité de Howe .....                                    | 267 |
| dans le cas $p$ -adique, $p \neq 2$<br>J.-L. Waldspurger                                   |     |
| LIST OF CONTRIBUTORS, WITH ADDRESSES .....   | 325 |
