Kenkichi IWASAWA — On the μ -invariants of Z_l -extensions	1
Hiroaki HIJIKATA and Hiroshi SAITO — On the representability of modular forms by theta series	13
Walter L. BAILY JR. — On the Fourier coefficients of certain Eisenstein series on the adèle group	23
Ichiro SATAKE — Mountjoy's abelian varieties attached to a holomorphic immersion	45
Masayoshi MIYANISHI — Some remarks on algebraic homogeneous vector bundles	71
Masaki MURAYAMA — On a family of algebraic vector bundles	95
Shigeru IITAKA — On Algebraic varieties whose universal covering manifolds are complex affine 3-spaces, I	147
Shigeo NAKANO — Vanishing theorems for weakly 1-complete manifolds	169
Tadao ODA — Hironaka's additive group scheme	181
Hiroshi YANAGIHARA — On algebraic Hopf subalgebras	221
Shuichi TAKAHASHI — A non-standard treatment of infinitely near points	231
Hiroshi YAMADA — On formal schemes	243
Yukihiko NAMIKAWA and Kenji UENO — On fibres in families of curves of genus two	297
Jun-ichi IGUSA — Geometry of absolutely admissible representations	373
Heisuke HIRONAKA — Subanalytic sets	453
Teruhisa MATSUSAKA — On stability of polarization	495
Hideyuki MATSUMURA — Formal power series rings over polynomial rings, I	511
Masayuki NOMURA — Formal power series rings over polynomial rings, II	521
