

# Contents

<b>Publications of J. Gani</b> .....	1
<b>1. Combinations of Events</b>	
P.A.P. MORAN. Some notes on permanents .....	17
L. RÅDE. On games with $D$ - and $T$ -events .....	21
E. SENETA. Degree, iteration and permutation in improving Bonferroni-type bounds .....	27
<b>2. Epidemics</b>	
N.T.J. BAILEY. Statistical problems in the modelling and prediction of HIV/AIDS .....	41
K. DIETZ. The first epidemic model. A historical note on P.D. En'ko .....	56
<b>3. Fitting and Modelling</b>	
J.R. BLAKE. Mathematical theory of cavitation bubble dynamics .....	69
F.R. DEHOOG & R.S. ANDERSSSEN. Convergence of kernel functions for cubic smoothing splines on non-equispaced grids .....	90
W.J. EWENS. Problems of statistical modelling in human genetics .....	100
D. GATES & M. WESTCOTT. Point processes with a clustering transition .....	107
D. VERE-JONES. On the variance properties of stress release models .....	123
<b>4. Quadratic Forms and <math>\chi^2</math></b>	
M.E. BOCK & H. SOLOMON. Distributions of quadratic forms .....	139
M.J. BUCKLEY & G.K. EAGLESON. An approximation to the dist- ribution of quadratic forms in normal random variables .....	150
T. LEWIS. A simple improved-accuracy normal approximation for $\chi^2$ .....	160
<b>5. Statistical Inference</b>	
N. BECKER. The role of conditional inference .....	171
P. HALL & M. MARTIN. On the bootstrap and two-sample problems .....	179
C.R. HEATHCOTE. The problem of misclassification of mortality statistics .....	193
N.L. JOHNSON & S. KOTZ. Effects of errors in inspection on a binary method for isolating nonconforming items .....	205
R. MORTON. Analysis of generalized linear models with nested strata of variation .....	215
J.T. WOOD, E.R. WILLIAMS & T.P. SPEED. Non-orthogonal block structure in two-phase designs .....	225

## 6. Stochastic Functionals

T. HIDA. White noise analysis and stochastic functional differential equations .....	241
Y. ITO. Differential operators arising from translation of Poisson functionals .....	247

## 7. Structure of Distributions

S.I. RESNICK. Association and multivariate extreme value distributions ..	261
D.N. SHANBHAG. The Davidson-Kendall problem and related results on the structure of the Wishart distribution .....	272

## 8. Time Series

E.J. HANNAN & C.H. HESSE. Rates of convergence for the quantile function of a linear process .....	283
D.F. NICHOLLS & A.L. POPE. Bias in the estimation of multivariate autoregressions .....	296
