

Table of Contents

<i>Preface</i>	v
<i>Table of Contents</i>	vii
<i>Picture of M.G. Krein</i>	xi
About the Mark Krein International Conference	1
Mark Grigorevich Krein (A short biography)	5
<i>I. Gohberg</i>	
The Seminar on Ship Hydrodynamics, Organized by M.G. Krein	9
<i>V.G. Sizov</i>	
<i>Review Papers:</i>	
The Works of M.G. Krein on Eigenfunction Expansion for Selfadjoint Operators and their Applications and Development	21
<i>Yu.M. Berezansky</i>	
M.G. Krein and the Extension Theory of Symmetric Operators. Theory of Entire Operators	45
<i>M. Gorbachuk and V. Gorbachuk</i>	
Works by M.G. Krein on Inverse Problems	59
<i>L.A. Sakhnovich</i>	
<i>Research Papers:</i>	
The Spectrum of Periodic Point Perturbations and the Krein Resolvent Formula	71
<i>J. Brüning and V.A. Geyler</i>	
The Periodic Choquard Equation	87
<i>Ya.M. Dymarski</i>	
On the Best Constant in a Poincare-Sobolev Inequality	101
<i>Y.V. Egorov</i>	
On Solutions of Parabolic Equations from Families of Banach Spaces Dependent on Time	111
<i>S.D. Eidelman and S.D. Ivasyshen</i>	

Canonical Systems on the Line with Rational Spectral Densities: Explicit Formulas	127
<i>I. Gohberg, M.A. Kaashoek and A.L. Sakhnovich</i>	
Oscillations in Systems with Periodic Coefficients and Sector-restricted Nonlinearities	141
<i>A. Halanay and Vl. Rasvan</i>	
Differential Operator Matrices of Mixed Order with Periodic Coefficients	155
<i>R. Hryniv, A. Shkalikov and A. Vladimirov</i>	
Asymptotics of Generalized Eigenvectors for Unbounded Jacobi Matrices with Power-like Weights, Pauli Matrices Commutation Relations and Cesaro Averaging	165
<i>J. Janas and S. Naboko</i>	
Functional Means, Convolution Operators and Semigroups	187
<i>S. Koshkin</i>	
The Inverse Spectral Problem for First Order Systems on the Half Line	199
<i>M. Lesch and M. Malamud</i>	
Exact Solution of the Marchenko Equation Relevant to Inverse Scattering on the Line	239
<i>Mee, Cornelis van der</i>	
An Arbitrary Oriented Crack in the Box Shell	261
<i>V.I. Migdalski and V.V. Reut</i>	
Homogeneity of a String having Three Unperturbed Spectra	267
<i>V.N. Pivovarchik</i>	
On the Integro-differential Equation of a Torsion of an Elastic Medium Including a Cylindrical Crack	273
<i>G. Popov and B. Kebli</i>	
Green's Formula and Theorems on Isomorphisms for General Elliptic Problems for Douglis-Nirenberg Elliptic Systems	281
<i>I. Roitberg and Y. Roitberg</i>	
Sobolev's Problem in Complete Scale of Banach Spaces	301
<i>Y. Roitberg, V. Los and A. Sklyarets</i>	
On the Simple Waves with Profiles in the Form of some Special Functions-Chebyshev-Hermite, Mathiev, Whittaker-in Two-phase Media	313
<i>J. Rushchitsky and S. Rushchitska</i>	

Inverse Spectral Problem Related to the N-wave Equation	323
<i>A.L. Sakhnovich</i>	
Degenerated Hyperbolic Approximations of the Wave Theory of Elastic Plates	339
<i>I. Selezov</i>	
Elliptic Problems with a Shift in Complete Scales of Sobolev-type Spaces	355
<i>Z.G. Sheftel</i>	
On the Extremal Regularization of the Variational Inequalities with Multivalued Operators	359
<i>O.V. Solonoukha</i>	
Poly-Fock Spaces	371
<i>N.L. Vasilevski</i>	
Diffraction of Longitudinal Shear Waves by a Hollow Thick Circular Cylinder which is Situated in the Elastic Halfspace	387
<i>N. Whitefield</i>	
On M.G. Krein's Spectral Shift Function for Canonical Systems of Differential Equations	393
<i>Y.A. Yavrian</i>	
<i>Table of Contents of Volume II</i>	419
