Vijay Kumar Patodi	iii
List of publications by V. K. Patodi	v
Contributed papers	
V. ARNOLD : On some problems in singularity theory	1
M. F. ATIYAH and R. BOTT : Yang-Mills and bundles over algebraic curves	11
JOZEF DODZIUK : Vanishing theorems for square-integrable harmonic forms	21
J. J. DUISTERMAAT : On operators of trace class in $L^2(X, \mu)$	29
J. EELLS and L. LEMAIRE : Deformations of metrics and associated harmonic maps	33
PETER B. GILKEY : Curvature and the heat equation for the de Rham complex	47
H. P. MCKEAN : Units of Hill curves	81
HARISH-CHANDRA : A submersion principle and its applications	95
JOHN J. MILLSON and M. S. RAGHUNATHAN : Geometric construction of cohomology for arithmetic groups I	103
M. S. NARASIMHAN and M. V. NORI : Polarisations on an abelian variety	125
S. RAGHAVAN and S. S. RANGACHARI : Poisson formulae of Hecke type	129
S. RAMANAN : Orthogonal and spin bundles over hyperelliptic curves	151
