Preface	
Highest weight modules for locally finite Lie algebras Yuri Bahturin and Georgia Benkart	1
Factorization of representations of quantum affine algebras Vyjayanthi Chari and Andrew Pressley	33
Basic coalgebras William Chin and Susan Montgomery	41
Partially and fully integrable modules over Lie superalgebras Ivan Dimitrov and Ivan Penkov	49
Comparing modular representations of semisimple groups and their Lie algebras J.E. Humphreys	69
The dual Lie bialgebra of a Lie bialgebra Walter Michaelis	81
Derivations and isomorphisms of Lie algebras of characteristic 0 J. Marshall Osborn	95
A characterization of some simple Lie algebras in prime characteristic George B. Seligman	109
Representations of derivation simple Lie algebras H. Strade	127
Some properties of \mathbb{Z}_2 -graded determinants Jacob Towber	143
