## Invited lectures

### *Images and PDE'S*

L. Alvarez, Universidad de Las Palmas, Spain .....	3
<i>Scale-Space Research at Utrecht University</i>	
B. M. ter Haar Romeny, University Hospital Utrecht, The Netherlands .....	15
<i>Local Adaptative Filters for Image Restauration and Enhancement</i>	
L. Yaroslavsky (Tel Aviv University, Israel) .....	31

## Active Contours

<i>3D Active Contours</i> , V. Caselles, C. Sbert (Universitat Illes Balears, Spain), R. Kimmel (Technion, IIT, Haifa, Israel), G. Sapiro (Hewlett-Packard Labs, Palo Alto, USA) .....	43
<i>Regularization Properties for Minimal Geodesics of a Potential Energy</i> , L. Cohen (Université Paris IX-Dauphine, France), R. Kimmel (University of California, Berkeley, USA) .....	50
<i>Multi-Resolution Algorithms for Active Contour Models</i> , B. Leroy, I. Herlin, (INRIA, Rocquencourt, France), L. Cohen, (Université Paris9- Dauphine, France) .....	58
<i>On Projective Plane Curve Evolution</i> , O. Faugeras (INRIA, Sophia-Antipolis, France), R. Keriven (E.N.P.C. CERMICS, Noisy Le Grand, France) .....	66
<i>Image Processing of Meteorological Images with Implicit Functions</i> , H. M. Yahia, I. Herlin (INRIA, Rocquencourt, France) .....	74
<i>An Algorithm for Generating Motion by Mean Curvature</i> , S.J. Ruuth (University of British Columbia, Vancouver, Canada) .....	82
<i>A Numerical Model for Large Deformation on Meteorological Images</i> J.-P. Berroir, I. Herlin, I. Cohen (INRIA, Rocquencourt, France) .....	92

## Image Enhancement and Restoration, Scale-Space

<i>Understanding the Structure of Diffusive Scale-Spaces</i> , N. Rougon, F. Prêteux (Institut National des Télécommunications, Evry, France) .....	103
<i>Nonlinear Diffusion Scale-Spaces : From the Continuous to the Discrete Setting</i> , J. Weickert (University of Kaiserslautern, Germany) .....	111
<i>Nonlinear Diffusions and Hyperbolic Smoothing f:or Edge Enhancement</i> , S. Kichenassamy (University of Minnesota, Minneapolis, USA) .....	119
<i>Convergence of Iterated Affine and Morphological Filters by Nonlinear Semi- group Theory</i> , F. Catté (Université Paris IX - Dauphine, France) .....	125
<i>Anisotropic Diffusion of Multivalued Images</i> , G. Sapiro (Hewlett-Packard Labs., Palo Alto, USA), D.L. Ringach (New York University, USA) .....	134

## Wavelets

<i>Creating and Comparing Wavelets</i> , G. Strang (MIT, Cambridge, USA) .....	143
<i>Signal Analysis and Synthesis with 1-D Quasi-Continuous Wavelet Transform</i> , S. H. Maes (IBM, Yorktown Heights, USA) .....	154
<i>Adaptive Wavelet Collocation for Nonlinear BVPs</i> , S. Bertoluzza, P. Pietra (C.N.R, Pavia, Italy) .....	168
<i>Multiwavelets and Two-scale Similarity Transform</i> , V. Strela (MIT, Cambridge, USA) .....	175

## Image Segmentation

<i>Texture Segmentation by Variational Methods</i> , C. Ballester, M. Gonzalez (Universitat Illes Balears, Palma de Mallorca, Spain) .....	187
<i>Affine Invariant Gradient Flows</i> , P. J. Olver, A. Tannenbaum (University of Minnesota, Minneapolis, USA), G. Sapiro (Hewlett-Packard Labs., Palo Alto, Californie) .....	194
<i>Convex Variational Segmentation of Multi-Channel Images</i> , C. Schnörr (Universität Hamburg, Germany) .....	201
<i>Segmentation d'images texturées par l'analyse anisotropique basée sur la transformation de Radon</i> , M. Dai (Université Michel de Montaigne - Bordeaux III, Talence, France) .....	208
<i>Adaptative Image Decompositions in a Wavelets Dictionary</i> , F. Bergeaud (Ecole Centrale Paris, France), S. Mallat (New York University, USA) .....	216
<i>Coiflets for Range Image Segmentation</i> , M. Djebali, M. Melkemi, D. Vandorpe (Université Claude Bernard-Lyon I, Villeurbanne, France), K. Melkemi (Université Joseph Fourier, Grenoble, France) .....	225

## Image Restoration

<i>A Nonlinear Primal-Dual Method for Total Variation-based Image Restoration</i> T. F. Chan, (University of California, Los AngelesUSA), G. H. Golub (Stanford University, USA), P. Mulet (Universidad de Valencia, Spain) .....	241
<i>A New Variational Technique for Shape from Shading</i> , G. Ulich (TU Berlin, Germany) .....	253
<i>Generalized Convergence Theorem for Wavelet Approximate Solutions of Elliptic Partial Differential Equations</i> , E. B. Lin, X. Zhou (University of Toledo, USA) .....	260
<i>Regularization Methods for the Image Restoration of Electromagnetic and Optical Complex Systems</i> , C. Bonifazzi, A. Tartari (Universitat di Ferrara, Italy), G. Maino (ENEA, Bologna, Italy) .....	269

## Coding

<i>Biorthogonal Brushlet Bases for Directional Image Compression</i> , F.G. Meyer, R.R. Coifman (Yale University, New Haven, USA) .....	285
<i>Morphological Interpolation for Image Coding</i> , J.R. Casas (Universitat Politecnica de Catalunya, Barcelona, Spain) .....	295
<i>Efficient Representations with Quantized Matching Pursuit</i> , V. K. Goyal, M. Vetterli (University of California, Berkeley, USA), N.T. Thao (University of Science and Technology, Kowloon, Hong Kong) .....	305

## Applications

<i>Non Uniform Multiresolution Method for Optical Flow Computation</i> , I. Cohen, I. Herlin (INRIA, Rocquencourt, France) .....	315
<i>Appariement de trajectoires issues d'un système de vision stéréoscopique en mouvement de convergence</i> , S. Ait Kaci Azzou, S. Larab (USTHB, Alger, Algérie), J. L. Coronado (Universidad de Valladolid, Spain) .....	323
<i>Analyse Microlocale et Tomographie Géométrique</i> , J.-C. Nosmas (Université de Nice-Sophia Antipolis, France) .....	338
<i>An Efficient Wavelet-based Facial Edge Detection Approach in Model-based Coding</i> , J.F. Liu, J.C.M. Lee (Hong Kong University of Science and Technology, Hong Kong) .....	345
<i>A Kanizsa Programme</i> , V. Caselles, B. Coll (Universitat Illes Balears, Palma de Mallorca, Spain), J.-M. Morel (Université Paris9-Dauphine, France) .....	356
