Preface	III
----------------------	-----

Nonlinear Systems, Robustness, and Time-Delay Systems

A Robust Control Theory Approach to Output Feedback Control Problems for Bilinear Systems	3
S. Sasaki and K. Uchida	
Improved Robustness Bounds for Nonlinearly Perturbed Linear Systems	15
B. Tibken and E. P. Hofer	
Nonlinear Continuous Observers	23
X. Xia and M. Zeitz	
Chaos in Higher Order Nonlinear Systems	35
K. Hirai	
Optimal Control of Descriptor Systems	41
P. C. Müller	
Internal Model Control and Smith Predictive Control for Time-Delay Systems	55
N. Abe	

Guest Lecture

Robust Control of Nonlinear Systems: An Application to Science Policy	67
G. Leitmann	

Mechatronic Systems and Manipulators

Aspects of Nonlinear Motion Control for Hydraulically Driven Large Redundant Manipulators	75
M. Schneider and M. Hiller	
Adaptation, Learning and Evolution - Application of Hierarchical-Neuro-Fuzzy-GA -	87
T. Fukuda and K. Shimojima	

Online Local Manoeuvre Planning for Car-Like Mobile Robots	97
G. Schmidt and W. Bott	
Nonlinear Optimization using Semidefinite Programming - On-Line Force Planning for Robot Hands -	107
M. Buss	
Generalized Predictive Control for Time-Varying Systems	119
K. Takahashi, Y. Nakauchi and Y. Mori	
Evolution of Learning Rules in Feedforward Neural Networks	129
H. Murao and S. Kitamura	
Adaptive Neural Control of a Walking Machine	141
M. Frik	
Control for Ultra-Multi-Link Manipulator in 3D Space	149
H. Kobayashi and E. Shimemura	

Biomedical and Mechanical Systems

A Physiological Model for the Simulation of the Glucose Metabolism in Insulin Dependent Diabetes Mellitus	159
A. Kistner, B. Höfig, B. Böhm and A. Seibold	
A Simulation Tool for Prediction of Bone Healing	171
E. P. Hofer, Ch. Ament, S. Brücher and J. Heeks	
On Laguerre Polynomials and the Natural Vibrations of the Multiple Pendulum	183
M. Braun	
Analytical Method of Nonlinear Rotor System by Using Component Mode Synthesis Method	193
T. Iwatsubo, J.-W. Kim and S. Kawamura	
Unilateral Problems of Multibody Dynamics	203
F. Pfeiffer	
Participants	217
Authors	223
