

Spectral Theory and Geometry

ICMS Instructional Conference

Edinburgh, 30 March – 9 April 1998

Contents

1	Preface	vii
2	List of lecture courses	viii
3	List of participants	ix
4	F E Burstall, <i>Basic Riemannian geometry</i>	1
5	I Chavel, <i>The Laplacian on Riemannian manifolds</i>	30
6	E B Davies, <i>Computational spectral theory</i>	76
7	M Ashbaugh, <i>Isoperimetric and universal inequalities for eigenvalues</i>	95
8	A Grigor'yan, <i>Estimates of heat kernels on Riemannian manifolds</i>	140
9	M Shubin, <i>Spectral theory of the Schrödinger operators on non-compact manifolds: qualitative results</i>	226
10	S Zelditch, <i>Lectures on wave invariants</i>	284
