

# Contents

Converse Theorems for $GL_n$ and Their Application to Liftings <i>Cogdell and Piatetski-Shapiro</i> .....	1
Congruences Between Base-Change and Non-Base-Change Hilbert Modular Forms <i>Ekmath Ghate</i> .....	35
Restriction Maps and $L$ -values <i>Chandrashekhara Khare</i> .....	63
On Hecke Theory for Jacobi Forms <i>M. Manickam</i> .....	89
The $L^2$ Euler Characteristic of Arithmetic Quotients <i>Arvind N. Nair</i> .....	94
The Space of Degenerate Whittaker Models for $GL(4)$ over $p$ -adic Fields <i>Dipendra Prasad</i> .....	103
The Seigel Formula and Beyond <i>S. Raghavan</i> .....	116
A Converse Theorem for Dirichlet Series with Poles <i>Ravi Raghunathan</i> .....	127
Kirillov Theory for $GL_2(\mathcal{D})$ <i>A. Raghuram</i> .....	143
An Algebraic Chebotarev Density Theorem <i>C.S. Rajan</i> .....	158
Theory of Newforms for the Maaß Spezialschar <i>B. Ramakrishnan</i> .....	170
Some Remarks on the Riemann Hypothesis <i>M. Ram Murty</i> .....	180

On the Restriction of Cuspidal Representations to Unipotent Elements <i>Dipendra Prasad and Nilabh Sanat</i> .....	<b>197</b>
Nonvanishing of Symmetric Square $L$ -functions of Cusp Forms Inside the Critical Strip <i>W. Kohnen and J. Sengupta</i> .....	<b>202</b>
Symmetric Cube for $GL_2$ <i>Henry H. Kim and Freydoon Shahidi</i> .....	<b>205</b>
$L$ -functions and Modular Forms in Finite Characteristic <i>Dinesh S. Thakur</i> .....	<b>214</b>
Automorphic Forms for Siegel and Jacobi Modular Groups <i>T.C. Vasudevan</i> .....	<b>229</b>
Restriction Maps Between Cohomology of Locally Symmetric Varieties <i>T.N. Venkataramana</i> .....	<b>237</b>
