

CONTENTS

E.L. Lawler :	
Computing Shortest Paths in Networks	1
S. Rinaldi :	
Optimal Unconstrained Cycles in Graphs	7
S. Rinaldi :	
Optimal Constrained Cycles in Graphs	45
F. Maffioli :	
The Traveling Salesman Problem and its Implications	69
E.L. Lawler :	
Complexity of Combinatorial Computations	87
E.L. Lawler :	
Overview of Network Flow Theory	97
E.L. Lawler :	
Some Aspects of Duality in Combinatorial Optimization	109
J.P. Barthès :	
Branching Methods in Combinatorial Optimization	117
A. Martelli – U. Montanari :	
On the Foundations of Dynamic Programming	145
F. Luccio :	
Parking Functions and Information Structures	165
E.L. Lawler :	
An Introduction to Matroid Optimization	181
