

## TABLE OF CONTENTS

PREFACE	v
LIST OF SPONSORS AND COMMITTEES	viii
SCHEDULE OF LECTURES	ix
LIST OF PARTICIPANTS	xv
PROTOCOLO DEL ACTO DE APERTURA	xxviii
REPLY OF PROFESSOR M. VALDIVIA	xix
LIST OF CONTRIBUTORS	xxiii
The mathematical works of Manuel Valdivia	
<b>J. Horváth</b>	1
Regularity properties of (LF)-spaces	
<b>D. Vogt</b>	57
Some applications of a decomposition method	
<b>A. Aytuna, T. Terzioğlu</b>	85
On the range of the Borel map for classes of non-quasianalytic functions	
<b>J. Bonet, R. Meise, B.A. Taylor</b>	97
Biduality in Fréchet and (LB)-spaces	
<b>K.D. Bierstedt, J. Bonet</b>	113
Holomorphic mappings of bounded type on (DF)-spaces	
<b>P. Galindo, D. García, M. Maestre</b>	135
Linearization of holomorphic mappings of bounded type	
<b>J. Mujica</b>	149
Spaces of holomorphic functions and germs on quotients	
<b>J.M. Ansemil, R.M. Aron, S. Ponte</b>	163
Automatic continuity of intertwiners in topological vector spaces	
<b>K.B. Laursen</b>	179
Barrelled function spaces	
<b>L. Drewnowski, M. Florencio, P.J. Paúl</b>	191
On distinguished Fréchet spaces	
<b>J. Bonet, S. Dierolf</b>	201
Prequojections and their duals	
<b>G. Metafune, V.B. Moscatelli</b>	215
Problems from the Pérez Carreras/Bonet book	
<b>S.A. Saxon</b>	233
Interior properties and fixed points of certain discontinuous operators	
<b>W.R. Derrick, L. Nova G.</b>	239

Functional analytic aspects of geometry. Linear extending of metrics and related problems <b>C. Bessaga</b>	247
Lototsky-Schnabl operators on the unit interval and degenerate diffusion equations <b>F. Altomare</b>	259
On weakly Lindelöf Banach spaces <b>J. Orihuela</b>	279
Distinguished subsets in vector sequence spaces <b>F. Bombal</b>	293
Weak topologies on bounded sets of a Banach space. Associated function spaces <b>J.G. Llavona</b>	307
Factorization of multilinear operators <b>J. Taskinen</b>	319
Complex geodesics on convex domains <b>S. Dineen, R.M. Timoney</b>	333
Continuity of tensor product operators between spaces of Bochner integrable functions <b>A. Defant, K. Floret</b>	367
Compact convex sets in the two-dimensional complex linear space with the Yost property <b>E. Behrends</b>	383
Some remarks on a limit class of approximation ideals <b>F. Cobos, T. Kühn</b>	393
Some factorization properties of composition operators <b>H. Jarchow</b>	405
Eigenvalues of nuclear operators on Tsirelson spaces <b>A. Pietsch</b>	415
Absolutely summing surjections from Sobolev spaces in the uniform norm <b>A. Pelczyński, M. Wojciechowski</b>	423
