Preface	v
The Hecke algebra of a reductive $p$ -adic group: a view from noncommutative geometry ANNE-MARIE AUBERT, PAUL BAUM, ROGER PLYMEN	1
Hilbert modular forms and the Ramanujan conjecture DON BLASIUS	35
Farey fractions and two-dimensional tori FLORIN P. BOCA AND ALEXANDRU ZAHARESCU	57
Transgression of the Godbillon-Vey class and Rademacher functions ALAIN CONNES AND HENRI MOSCOVICI	79
Archimedean cohomology revisited CATERINA CONSANI AND MATILDE MARCOLLI	109
A twisted Burnside theorem for countable groups and Reidemeister numbers ALEXANDER FEL'SHTYN AND EVGENIJ TROITSKY	141
Introduction to Hopf cyclic cohomology MASOUD KHALKHALI AND BAHRAH RANGIPOUR	155
The non-abelian (or non-linear) method of Chabauty MINHYONG KIM	179
The residues of quantum field theory – numbers we should know DIRK KREIMER	187
Phase transitions with spontaneous symmetry breaking on Hecke $C^*$ -algebras from number fields MARCELO LACA AND MACHIEL VAN FRANKENHUIJSEN	205
On harmonic maps in noncommutative geometry GIOVANNI LANDI	217
Towards the fractional quantum Hall effect: a noncommutative geometry perspective MATILDE MARCOLLI AND VARGHESE MATHAI	235
Homological algebra for Schwartz algebras of reductive $p$ -adic groups RALPH MEYER	263

A non-commutative geometry approach to the representation theory of reductive $p$ -adic groups: Homology of Hecke algebras, a survey and some new results	301
VICTOR NISTOR	
Three examples of non-commutative boundaries of Shimura varieties	323
FREDERIC PAUGAM	
Holomorphic bundles on 2-dimensional noncommutative toric orbifolds	341
ALEXANDER POLISHCHUK	
A new short proof of the local index formula of Atiyah-Singer	361
RAPHAEL PONGE
