

C O N T E N T S

F. V. Atkinson

Exponential behaviour of eigenfunctions and gaps in the essential spectrum 1

B. L. J. Braaksma

Laplace integrals in singular differential and difference equations 25

David Colton

Continuation and reflection of solutions to parabolic partial difference equations 54

W. N. Everitt

Legendre polynomials and singular differential operators 83

Gaetano Fichera

Singularities of 3-dimensional potential functions at the vertices and at the edges of the boundary 107

Patrick Habets

Singular perturbations of elliptic boundary value problems 115

F. A. Howes and R. E. O'Malley Jr.

Singular perturbations of semilinear second order systems 131

H. W. Knobloch

Higher order necessary conditions in optimal control theory 151

J. Mawhin and M. Willem

Range of nonlinear perturbations of linear operators with an infinite dimensional kernel 165

Erhard Meister

Some classes of integral and integro-differential equations of convolutional type 182

B. D. Sleeman

Multiparameter periodic differential equations 229

Jet Wimp

Uniform scale functions and the asymptotic expansion of integrals 251
