CONTENTS

Tests of Multiple Correlation with Additional Data
MANZOOR AHMAD 1

On D-,E-,D_A- and D_M- Optimality Properties of Test Procedures of Hypotheses Concerning the Covariance Matrix of a Normal Distribution
P.K. BANERJEE and N. GIRI 11

Scaling of Multi-Dimensional Contingency Tables by Union-Intersection
ROLF E. BARGMANN 21

The Negative Binomial Point Process and its Inference
R.T. BURNETT and M.T. WASAN 31

Tests of Location Based on Principal Components
E.M. CARTER 47

Invariant Polynomials with Matrix Arguments and Their Applications
YASUKO CHIKUSE 53

A Nonparametric Method to Discriminate two Populations
G. GABOR 69

Some Methods of Searching for Outliers
JANE F. GENTLEMAN 73

On A Multivariate Statistical Classification Model
A.K. GUPTA 83

Some Applications of Conditional Expectation Minimization Theory to Psychological Tests
R.P. GUPTA 95

An Application of the Singular Normal Distribution in Linear Models
ANANT M. KSHIRSAGAR and NOEL WHEELER 105

Asymptotic Distribution of Quantiles From A Multivariate Distribution
K.S. KUAN and MIR M. ALI 109

Distributional Properties of Certain Tests for Detection of Discrete Mass in Cross-Spectra of Multivariate Time Series
IAN B. MACNEIL 121

The Effects of Elliptical Distribution on Some Standard Procedures Involving Correlation Coefficients: A Review
ROBB J. MUIRHEAD 143

A Review of Step-Down Procedures For Multivariate Analysis of Variance
GOVIND S. MUDHOLKAR and PERLA SUBBAIAH 161

On Constrained Least Squares Estimation
P. SCOBEY and D.G. KABE 179

Interval Estimation in Models with Distributed Lags
K.R. SHAH and A. EL-SHAARAWI 191

Estimations of Regression Curves When the Conditional Density of the Predictor Variable is in Scale Exponential Family
R.S. SINGH 199

A Technique for Selection of Variables in Multiple Regression
UMED SINGH and VRINDA TAYAL 207

Asymptotic Distribution of Latent Roots and Applications
M.S. SRIVASTAVA and E.M. CARTER 219

On Approximating Multivariate Distributions
W.Y. TAN 237

Robust Estimation of the Variance-Covariance Matrix of Symmetric Multivariate Distributions
M.L. TIKU 251

The Analysis of Nonorthogonal Manova Designs Employing Full Rank Multivariate Linear Model
NEILL H. TIMM 257

On the Limiting Behaviour of Sample Correlation Coefficients
R.J. TOMKINS 275

A Characterization of Multivector Multinomial and Negative Multinomial Distributions
DERRICK S. TRACY and DEVA C. DOSS 281
