

Table of Contents

1.	Chr. Krüger, Symmetries - Gauge fields - Interactions	5
2.	A. Odziejewicz, Conformal kinematics and twistor flag spaces	47
3.	Th. Friedrich, Self-duality of Riemannian manifolds and connections	56
4.	H. Baum, Self-dual connections and holomorphic bundles	105
5.	J. Eichhorn, The topological structure of con- nection spaces	119
6.	H. Kurke, Introduction to algebraic geometric methods	134
7.	W. Müller, Classification of instantons over S^4 (according to Drinfeld and Manin)	152
8.	Th. Zink, Über die Klassifikation der Instantonen- bündel über S^4 (nach W.G. Drinfeld und J.I. Manin)	163
9.	W. Kleinert, Stable rank 2-vector bundles on the projective 3-space, their moduli, and the classification of instantons	172
