

CONTENTS

GELBART, S. and I. PIATETSKI-SHAPIRO: On Shimura's correspondence for modular forms of half-integral weight	1
HARDER, G.: Period integrals of cohomology classes which are represented by Eisenstein series	41
HOWE, ROGER: Wave front sets of representations of Lie groups	117
IWASAWA, KENKICHI: On p-adic representations associated with \mathbb{Z}_p -extensions	141
JACQUET, HERVÉ: Dirichlet series for the group $GL(n)$	155
KATZ, NICHOLAS M: Crystalline cohomology, Dieudonné modules and Jacobi sums	165
RAGHAVAN, S: Estimates of coefficients of modular forms and generalized modular relations	247
SHINTANI, TAKURO: A remark on zeta functions of algebraic number fields	255
STARK, H. M.: Derivatives of L-series at $s = 0$	261
ZAGIER, D.: Eisenstein series and the Riemann zeta function	275
ZAGIER, D.: Eisenstein series and the Selberg trace formula I	303
