

TABLE OF CONTENTS

	<u>Page</u>
Preface	
Table of Contents	
I. <u>Session in Honour of Konrad Bleuler.</u>	
I.E. Segal; Introduction	2
S. Deser; Massless Limits and Dual Field Theories	3
B. Kostant; Poisson Commutativity and the Generalized Periodic Toda Lattice	12
J.E. Marsden; Spaces of Solutions of Relativistic Field Theories with Constraints	29
II. <u>Symplectic Geometry</u>	
A. Weinstein; The Symplectic "Category"	45
V. Guillemin and S. Sternberg; Moments and Reductions	52
T. Ungar; Elementary Systems for Lie Algebra Bundle Actions	66
A.O. Barut; What Kind of a Dynamical System is the Radiating Electron?	90
III. <u>Differential Operators on Manifolds.</u>	
J.J. Duistermaat; Asymptotics of Elementary Spherical Functions. . .	100
S.M. Paneitz; Hermitian Structures on Solution Varieties of Non-Linear Relativistic Wave Equations.	108
S.I. Andersson; Vector Bundle Connections and Liftings of Partial Differential Operators.	119
P.L. Garcia; Phase Space of the Coupled Vectorial Klein-Gordon-Maxwell Equations	133
IV. <u>Space-Time Geometry and General Relativity</u>	
I.E. Segal; Particle Theory and Global Geometry	151

H.P. Jakobsen;	Group Theoretical Aspects of the Chronometric Theory	165
W.H. Greub and H.R. Petry;	Spinor Structures	170
W.H. Greub;	The Complex Cayley Algebra and the Lorentz Group	186

V. Quantization Methods

P.A. Horvathy;	Prequantisation from Path Integral Viewpoint	197
S.T. Ali;	A Geometrical Property of POV-measures and Systems of Covariance	207
J. Tarski;	Path Integrals over Manifolds	229

VI. Quantum Field Theory

Y. Ne'eman;	Gauge-Theory Ghosts and Ghosts-Gauge Theories	241
P. Houston and L. O'Raifeartaigh;	On Monopole Systems with Weak Axial Symmetry	260
B.S. Kay;	Quantum Fields in Curved Space-Times and Scattering Theory	272
P.J.M. Bongaarts;	The Quantized Maxwell Field and its Gauges; a Generalization of Wightman Theory	296

I. SESSION IN HONOUR OF KONRAD BLEULER

SEGAL, I.E.	INTRODUCTION	2
DESER, S.	MASSLESS LIMITS AND DUAL FIELD THEORIES	3
KOSTANT, B.	POISSON COMMUTATIVITY AND THE GENERALIZED PERIODIC TODA LATTICE	12
MARSDEN, J.E.	SPACES OF SOLUTIONS OF RELATIVISTIC FIELD THEORIES WITH CONSTRAINTS	29
