

TABLE OF CONTENTS

Lawrence Corwin, <i>Matrix coefficients of nilpotent Lie groups</i>	1
Lawrence Corwin, <i>Primary projections on nilmanifolds</i>	12
Lawrence Corwin, <i>Solvability of left invariant differential operators on nilpotent Lie groups</i>	23
Michael Cowling and Adam Koranyi, <i>Harmonic analysis on Heisenberg type groups from a geometric viewpoint</i>	60
Michel Duflo, <i>On the Plancherel formula for almost algebraic real Lie groups</i>	101
Mogens Flensted-Jensen, <i>Harmonic analysis on semisimple symmetric spaces. A method of duality</i>	166
B. Helffer, <i>Partial differential equations on nilpotent groups</i>	210
Sigurdur Helgason, <i>Wave equations on homogeneous spaces</i>	254
Roger Howe, Gail Ratcliff and Norman Wildberger, <i>Symbol mappings for certain nilpotent groups</i>	288
Henri Moscovici, <i>Lefschetz formulae for Hecke operators</i>	321
Richard Penney, <i>Harmonic analysis on unbounded homogeneous domains in C^n</i>	359
W. Rossmann, <i>Characters as contour integrals</i>	375
Linda Preiss Rothschild, <i>Analyticity of solutions of partial differential equations on nilpotent Lie groups</i>	389
V.S. Varadarajan, <i>Asymptotic properties of eigenvalues and eigenfunctions of invariant differential operators on symmetric and locally symmetric spaces</i>	396
Gregg J. Zuckerman, <i>Quantum physics and semisimple symmetric spaces</i> .	437
