

TABLE OF CONTENTS

Introduction

1*.	I. Moerdijk and G. E. Reyes, Cohomology theories in synthetic differential geometry .....	1
2.	M. Bunge and P. Sawyer, On connections, geodesics and sprays in synthetic differential geometry	68
3.	A. Frölicher, B. Gisin, and A. Kriegl, General dif- ferentiation theory .....	125
4.	D. A. J. Hoskin, The Stein topos .....	154
5.	A. Kock, Some problems and results in synthetic functional analysis .....	168
6.	A. Kock, Remarks on connections and sprays .....	192
7.	R. Lavendhomme and Th. Lucas, Vers une géométrie algébrique générale .....	203
8.	C. McLarty, Local, and some global, results in syn- thetic differential geometry .....	226
9.	E. Robinson, Stable theories of local rings .....	257
10.	G. Wraith, Toposes and simplicial sets: the cohomolo- gical connection. A report on joint work with A. Joyal .....	281
