

Table of contents

1. T.Datuashvili,	Homological dimension of extensions of abelian categories and rings	1
2. J.Gubeladze,	Classical algebraic K -theory of monoid algebras	36
3. H.Inassaridze,	K -theory of special normed rings	95
4. G.Janelidze,	Cohomology and extensions of internal modules	157
5. M.Jibladze,	Coefficients for cohomology of "large" categories	169
6. T.Kandelaki,	K -theory of \mathbb{Z}_2 -graded Banach categories	180
7. D.Pataraiia,	On Quillen's plus construction of perfect groups	222
8. T.Pirashvili,	Cohomology of small categories in homotopical algebra	268
9. M.Uridia,	U -theory of exact categories	303
