

# CONTENTS

## 1. STOCHASTIC FINITE-DIMENSIONAL SYSTEMS

**C. BRUNI and G. KOCH:**

Some Results about Two-Mode Stochastic Compartmental Models ..... 3

**R. BUCKDAHN:**

Anticipating Linear Stochastic Differential Equations ..... 18

**O. ENCHEV:**

Nonlinear Filtering for Signal Correlated with the Noise ..... 24

**H. J. ENGELBERT and W. SCHMIDT:**

Continuous Local Martingales: Strong Markov Property, Solutions  
of Stochastic Equations, and the Interplay between Them ..... 48

**A. HALANAY and T. MOROZAN:**

Tracking Almost Periodic Signals under White Noise Perturbations ..... 75

**T. HIDA and SI SI:**

Variational Calculus for Gaussian Random Fields ..... 86

**J. KISYŃSKI:**

Local Uniqueness of Feller Processes with Integrodifferential Generators ..... 98

**A. KOWALSKI and D. SZYNAL:**

On General ARMA Models and Regularity Conditions ..... 112

**A. ROZKOSZ and L. SŁOMIŃSKI:**

On Limit Points of a Sequence of Weak Solutions of One-Dimensional  
Stochastic Differential Equations ..... 125

**K. SOBCZYK:**

Modelling of Random Fatigue Accumulation ..... 134

<b>K. URBANIK:</b>	
Functionals on Stochastic Processes .....	142
<b>C. VARSAN:</b>	
Asymptotic Almost Periodic Solutions for Stochastic Differential Equations .....	152
 <b>2. STOCHASTIC INFINITE-DIMENSIONAL SYSTEMS</b>	
<b>T. BOJDECKI and J. JAKUBOWSKI:</b>	
Stochastic Integral with Respect to a Generalized Wiener Process in a Conuclear Space .....	161
<b>A. CHOJNOWSKA-MICHALIK:</b>	
Periodic Linear Equations with General Additive Noise in Hilbert Spaces .....	169
<b>P. KOTELENEZ:</b>	
Low and High Density Reaction-Diffusion Models .....	185
<b>Z. KOTULSKI:</b>	
Equations for the Characteristic Functional and Moments of the Complex Stochastic Evolutions—Motivation and Results .....	191
<b>R. MANTHEY:</b>	
On a Class of Semilinear Stochastic Partial Differential Equations .....	201
<b>B. MASŁOWSKI:</b>	
Strong Feller Property for Semilinear Stochastic Evolution Equations and Applications .....	210
<b>E. PLATEN:</b>	
On the Macroscopic Nonequilibrium Dynamics of an Exclusion Process .....	225
<b>J. ZABCZYK:</b>	
On Large Deviations for Stochastic Evolution Equations .....	240
 <b>3. STOCHASTIC CONTROL AND ESTIMATION</b>	
<b>A. BENSOUSSAN and R. GŁOWIŃSKI:</b>	
Approximation of Zakai Equation by the Splitting up Method .....	257

<b>A. BENSOUSSAN and NAGAI:</b>	
An Ergodic Control Problem on Whole Euclidean Space .....	266
<b>T. BIELECKI and L. STETTNER:</b>	
On Limit Control Principle for Singularly Perturbed Markov Processes .....	274
<b>T. DUNCAN:</b>	
Some Solvable Stochastic Control Problems in Symmetric Spaces of Type IV .....	284
<b>D. GATAREK:</b>	
Impulsive Control of Piecewise-Deterministic Processes .....	298
<b>U. HAUSSMAN:</b>	
Synthesis of Optimal Controls .....	309
<b>P. KAZIMIERCZYK:</b>	
Consistent ML Estimator for Drift Parameters of both Ergodic and Nonergodic Diffusions .....	318
<b>B. PASIK-DUNCAN:</b>	
On Adaptive Control of Continuous Time Linear Stochastic Systems .....	328
<b>Z. POROSIŃSKI and K. SZAJOWSKI:</b>	
A Minimax Control of Linear Systems .....	344
<b>A. SIEROCIŃSKI and J. ZABCZYK:</b>	
On a Packing Problem .....	356
<b>C. TUDOR:</b>	
Quadratic Control for Linear Stochastic Equations with Pathwise Cost .....	360
<b>ADDRESSES OF CONTRIBUTORS</b> .....	371
