

CONTENTS

S. ALBEVERIO, A. HILBERT	
Some results on Newton equation with an additional stochastic force	1
S. ALBEVERIO, M. RÖCKNER	
On Dirichlet forms on topological vector spaces: existence and maximality	14
S. ALBEVERIO, M. ZHIMING	
Nowhere Radon smooth measures, perturbation of Dirichlet forms and singular quadratic forms	32
A.N. AL-HUSSAINI	
A generalization of Ito's formula	46
S.V. ANULOVA	
General functional limit theorems for semimartingales	55
A. BENSOUSSAN	
Nonlinear filtering for dynamic systems with singular perturbations	63
T. BIELECKI, B. GOLDYS	
On recursive adaptive filtering: linear case	72
R.J. CHITASHVILI	
On the smooth fit boundary conditions in the optimal stopping problem for semimartingales	82
M.H.A. DAVIS, E.M. HEMERLY	
Order determination and adaptive control of ARX models using the PLS criterion	91
T.E. DUNCAN	
Adaptive control of some partially observed linear stochastic systems	102
R.J. ELLIOTT, M. KOHLMANN	
The adjoint process in stochastic optimal control	115
R.J. ELLIOTT, M. KOHLMANN	
Integration by parts and the Malliavin calculus	128
L.GERENCSER	
Pathwise stability of random differential equations and the solution of an adaptive control related problem	140
G.L. GOMEZ	
Some economic applications of stochastic calculus	150
T. KOTTMANN	
OLS-Estimation and rationality in models with forecast feedback	162

P. KRÖGER	
Invariance of cones and comparison results for some classes of diffusion processes	171
P.R. KUMAR	
Performance and robustness in adaptive control of linear stochastic systems	183
H. KUSHNER	
Singular perturbations for stochastic control	196
T.L. LAI	
Extended stochastic Lyapunov functions and recursive algorithms in linear stochastic systems	206
A. LE BRETON, M. MUSIELA	
Consistency sets of least squares estimates in stochastic regression models	221
P. MANDL	
Consistency of estimators in controlled systems	227
S.P. MEYN, P.E. CAINES	
Stochastic controllability and stochastic Lyapunov functions with applications to adaptive and nonlinear systems	235
J. PARISI	
A simple stochastic growth model for filamentary current structures in semiconductor systems	258
B. PASIK-DUNCAN	
Asymptotic normality of an estimator in a controlled investment model with time-varying parameters	266
L. STETTNER	
On invariant measures of filtering processes	279
D. SURGAILIS, T. ARAK	
Markov fields with discrete state space	293
N. VAN THU	
Strictly stationary processes with the linear prediction property	317
E. WONG	
Multiparameter martingale and Markov process	329
K. YAMADA	
Limit process with the domain of attraction of a stable law	337
